

# “Educational Organizations” Management System Consultancy

ISO 21001 provides a common management tool for organizations providing educational products and services capable of meeting the needs and requirements of learners and other customers.

ISO 21001 focuses on the specific interaction between an educational organization, the learner and other customers. Current educational processes are becoming increasingly focused on co-creation where the traditional customer-supplier relationship is refined into a collaborative partnership. This standard will give guidance on how to deliver quality in this challenging new environment.

## Benefits of implementation and certification

- Better alignment of objectives and activities with policy.
- Enhanced social responsibility by providing inclusive and equitable quality education for all.
- More personalized learning and effective response to all learners.
- Consistent processes and evaluation tools to demonstrate and increase effectiveness and efficiency.
- Increased credibility of the educational organization.
- Ability to demonstrate commitment to effective quality management practices.
- Development of a culture for organizational improvement.

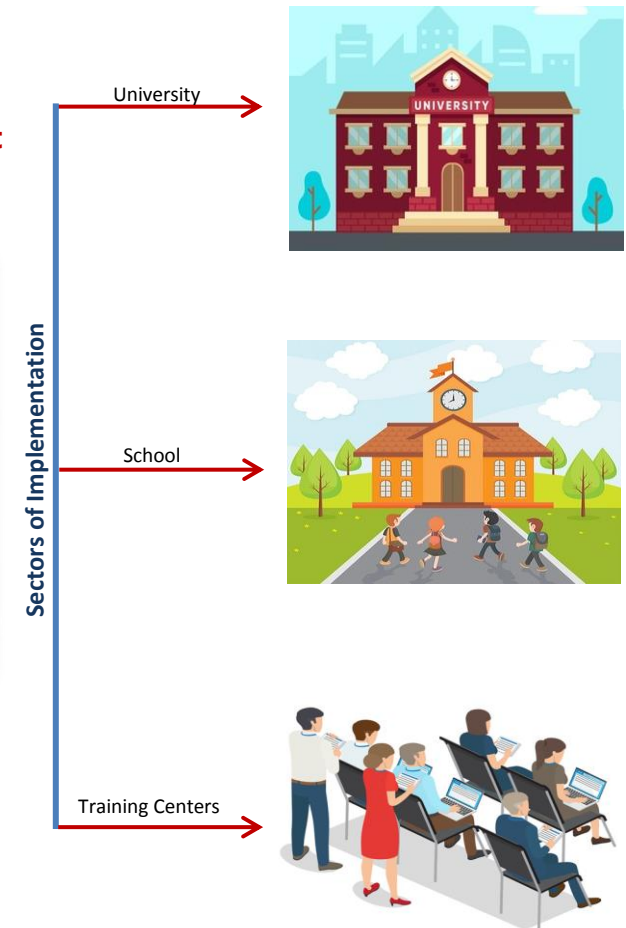

**VOICE OF QUALITY**, once decided to deliver consulting services, we consider the customer is our partner and a part of our success. Our consulting services are based on a scientific methodology starting from listening to the customers' voice, understanding of their business nature and needs in market, analyzing their problems and strive to get the root causes, setting plans and tactics which enable them to improve their processes' capability and the efficiency of the management system. We involve professional consultants in many sectors to ensure the perfection of our consulting services.
