

“Quality Coaching”

Consultancy Services

SIX Months in your factory

Quality Coaching is integrated Consultancy program to improve the effectiveness and efficiency of the entire organization through developing of three main factors

- Process
- Management System
- People

1- Process

We will measure and improve (process capability, OEE, Control charts & etc.) and issue reports monthly & quarterly.

2- Management System

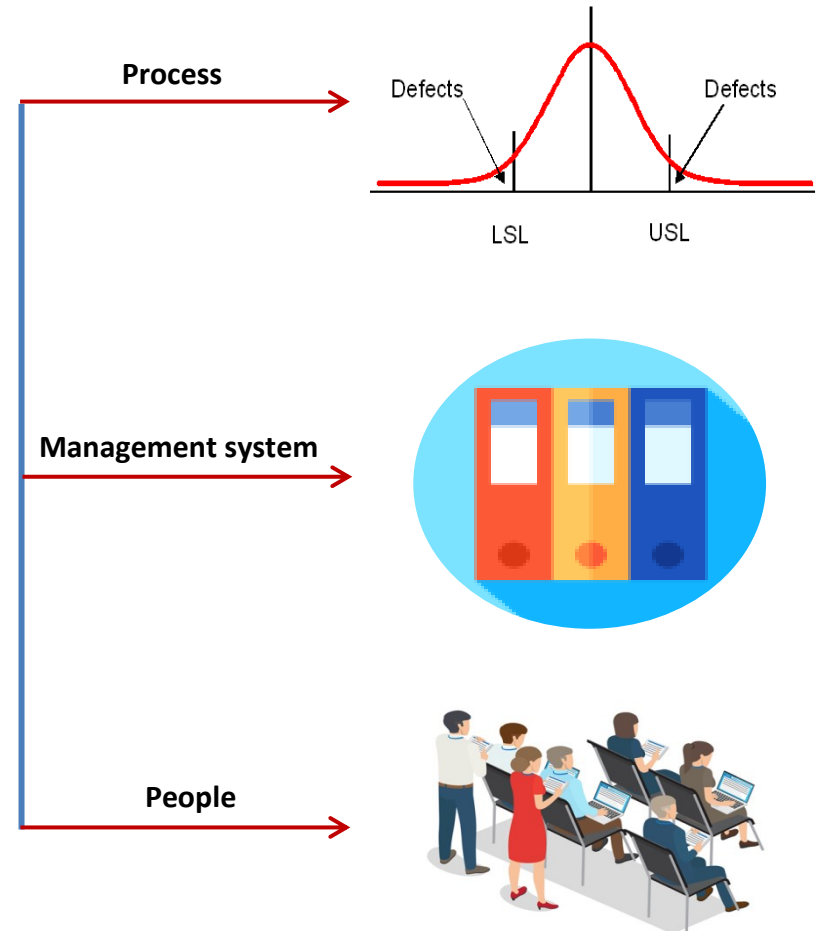

Self-assessment, to evaluate the existed quality management systems and executing management maintenance programs to improve the effectiveness and efficiency of management systems.

3- People

Establish a training plan to be implemented during the six months covers technical and soft skills for Quality department team to ensure competency.

Make Quality a Lifestyle..!
