

Newsletter

● From The Committee

This will be the last Newsletter from the 2017-2018 Committee. We wish to take this opportunity to thank the outgoing committee of Rod Whittle, David Morgan, Sarah Colee, Matt Keillor, Randall O'Neill, Jay Murray and Renae Davidson. All need to be congratulated for their commitment and determination. The year has been a rewarding challenge for all involved with our targets achieved or exceeded. Keeping on track and maintaining the focus on our goals and targets can at times be a testing mission with so many outside influences and disruptions. Working together and utilising and respecting the strengths and talents of each individual has been the key to a successful term of management.

4th November

Medal of Medals event

23rd November

Ladies Night – Body Heat 50 Shades Tour

24th November

Presentation Night

2018 IN REVIEW!

The wet season didn't appear to affect our golfers and the year kicked off in early January with good fields. We definitely see the influence from the different shifts/rosters but in general we have experienced good numbers and our Monthly Medal events are always popular.

Our social golfers and competitions have remained the 'jewel in the crown' so to speak, with strong fields and great camaraderie. Thanks goes to the organisers of Dawn Busters, Weipa Wackers and Friday Rum Run. Keep up the good work!

The 2018 Weipa Pighunt was another successful event. Congratulations must go to the Pighunt committee for their organisation and professional delivery of this community event.

Just some of the achievements this year include successful working bees, lasering of the course and new markers, shed clean out continues with upgrades and testing to ensure it is compliant, greens renovated, new tee on No 7, extensive maintenance to the irrigation system, upgrade to the lights and fans on the deck, general course beautification and an awareness campaign of the general care to the course.

“the most important shot in golf is the next one”

Ben Hogan

The club has taken on the operation of the Bistro, installed a new phone system, installed a Glycol beer system, installed a new ATM and purchased additional entitlements for the gaming sector with a view to upgrading this area. The Buy Local Initiative was launched and was welcomed and supported by our local businesses.

Probably the most significant achievements this year is in the Clubhouse addition of the new kitchen, managers office and pro shop which is due for completion in a couple weeks. We are all very proud of the design, fitout and planning of this project which we envisage will add considerable value to our Club.

Of significance and another value adder for our Club is the renovation of the residence. This is progressing well and is an exciting project. Some photos of these projects are included in this newsletter.
