

SPECIAL OPERATIONS **FULL MISSION PROFILE WEEK**

The TATSOR Special Operations Training Services Group (TSOTS-G), a professional training and advisory organization that specializes in military, law enforcement and corrections special operations and law enforcement patrol operations presents the Special Operations Full Mission Profile Week (FMP-Week). The FMP Week (referred to as "the Push") is designed to provide a vehicle in which identified Law Enforcement-Corrections-Military Law Enforcement Special Operations Organizations/Units can conduct tactical operations within a wide variety of mission sets with emphasis on "realism" and "interoperability." Training scenarios will be developed and orchestrated by TATSOR Group cadre/staff allowing attending organizations to simply participate and train. The conducted missions will be developed and executed as close to the operational environment as possible with UTM MMR and live fire application. **ALL** aspects of the LE/Corrections Special Operations Mission planning/execution process will be performed/exercised.

The "Push" will be held at the Integrated Special Operations Facility (ISOTF) located in Calhoun County near Altha Florida **23-27 Sept 2019**. The facility, located on 68 + acres, boasts a variety of capabilities that can accommodate a variety of live fire training programs and events.

The "Push" tuition for each attending organization is **\$2,100.00** and includes lodging as well as the end of week "Operators Banquet". Each participating organization is allowed a maximum of seven and a minimum of six attending personnel. Maximum program size is 42 personnel.

The "Push" will be held over a Five-day period encompassing multiple 18+-hour operational periods. During each operational period different organizations will be identified as the "lead" for any mission tasking that occurs and when alerted will lead in the planning/execution process regarding that specific mission. The other participating organizations will support in a "mutual aid" role. The "lead" organization will rotate throughout the operational periods. Participants will not know what their respective mission is until alerted with all missions conducted on "unfamiliar terrain" to the participants.

The schedule in general will look as follows:

- Sunday—Arrival with Facility and FMP Week Orientation
- Monday-Tuesday--Participant Assessments and Operational Period #1
- Tuesday-Wednesday--Operational periods #2 and #3
- Wednesday-Thursday---Operational periods #3 and #4
- Thursday- Friday---Operational period #4
- Friday---Final stand-down/FMP Week debrief/Operators Banquet
- Saturday---Depart Facility

SO FMP WEEK ("The PUSH")
