

SECURUS LLC

SECURUS LLC CAPABILITIES

SECURUS LLC

Who/What is "The Group"

SECURUS LLC is a professional training and advisory organization that encompasses the TATSOR Group and the Integrated Special Operations Training Facility (ISOTF). Known as "The Group" the consortium specializes in law enforcement, corrections and military special operations with emphasis on high-risk incident management subjects. In addition SECURUS LLC provides training and advisory assistance regarding security of personnel and infrastructure as well as a suite of citizen specific training programs covering the full spectrum of firearms/MMS, personal defense and wilderness survival.

Courses presented are designed specifically for the military, law enforcement and corrections special operations and patrol professional. In addition SECURUS LLC teaches and advises within the security arena. All programs are presented as a base product. Each customer is unique and programs can be formulated and taught based upon the user organizations needs and levels of expertise.

Who/What is "The Group"

SECURUS LLC programs never fall prey to the commonplace "risk aversion" concept of training seen regularly in the training world. Instead our programs are cutting edge and conducted as close to the "live operational environment" as is possible via "live fire TTP validation."

SECURUS LLC utilizes in depth risk analysis and management to provide risk mitigation without "choreographing" training. The result is the most realistic "tactically safe" training conducted in the world today. Training designed towards preparing personnel and organizations for the "worst case scenarios" that could possibly be faced.

SECURUS LLC Advice and Training is world renown and in demand internationally by ONLY the most SERIOUS organizations and personnel.

Who/What is "The Group"

Courses are normally conducted at the customer's location by a mobile training team (MTT). This allows more ready access by more personnel from the customer's organization while keeping costs to a minimum. As a part of most MTT training the SECURUS LLC offers a unique "host program option" which provides the customer with a designated number of tuition free slots to the program(s) they host.

SECURUS LLC also conducts training at a variety of state of the art training complexes to include the SECURUS LLC ISOTF. The ISOTF includes 68+ acres of state of the art ranges and maneuver areas. In addition the ISOTF boasts access to over 3000 acres of training areas via a unique lease program to include access to two rivers and a multitude of varied environments. The ISOTF boast specialized capabilities unlike any other in the world providing live fire training support that allows the user to train as close to the operational environment as possible.

SECURUS LLC will periodically team with a variety of cutting edge organizations-companies as required to provide even more dynamic support regards training/advisory assistance with emphasis upon the well-being and survival of the "Operator" and "Emergency Responder."

SECURUS LLC Training System Philosophy

- Focused “Train as you Fight/Operate” Philosophy
- Realistic, operationally-validated Tactics Techniques and Procedures (TTPs) training model
- Emphasis on training for the worst-case scenario
- Robust Risk Management System allows for realistic training as close to the operational environment as possible while maintaining tactical safety
- Training Management System (TMS) emphasizes mastery of entry-level skills with progression via Tier System - levels I-V
- Individual, subunit and collective skills training conducted with emphasis upon live-fire validation exercises
- Programs are designed to provide training “as close to the operational environment” as is possible via live-fire validation of identified tactics, techniques, and procedures

Training Options

- **Option 1:** SECURUS LLC conducts resident training at the Integrated Special Operations Training Facility (ISOTF) in Altha, Florida USA
- **Option 2:** SECURUS LLC conducts training via Mobile Training Team (MTT) at customer's designated location
- **Option 3:** SECURUS LLC conducts resident training at a variety of state of the art Training Facilities Nationally-Internationally

Training Staff/Cadre

- The SECURUS LLC boasts a unique cadre of special operations and conventional unit/agency personnel who have extensive experience in their fields
- (1) Master Trainer; (14+) Adjunct Instructors: U.S. Federal- State-Local Law Enforcement, State and Federal Corrections, U.S. Army Special Forces (USSF), U.S. Army, U.S. Marine Corps, U.S. Air Force, and U.S. Army Special Mission Units
- Combined 200+ years of collective experience operationally and within the training/advisory assistance realms
- All Cadre possess varied “Operational-Training Experiences” and the ability to impart that experience and knowledge to others

Active Assailant-Shooter Instructor Program

SRO-TAP Concept

SECURUS LLC also provides a specialized training and advisory package unlike anything else offered to Law Enforcement and Corrections. Known as the Special Response Organization Training and Advisory Program (SRO-TAP) it is a unique vehicle designed for the LE/Corrections Special Operations Organization of the 21st Century.

The SRO-TAP involves a robust foundation and sustainment training program developed in conjunction with an organizations leadership that is ultimately taught/advised by a specialized contract training team/cell from SECURUS LLC. The oversight by SECURUS LLC also includes evaluations on the individual, subunit and collective levels with the desired end state of a collective organization validation (also conducted by SECURUS LLC).

SRO-TAP Concept

In today's ever changing world, it is vitally important for the law enforcement professional to be well trained and motivated in order to succeed. In the tactical arena, this is even more important. The Special Response Organizations (SRO) of the 21st century must be better trained, better motivated and capable of response on a moments notice with the ability to resolve a myriad of mission sets.

With the ever changing, highly dangerous criminal/terrorist threat operating in our communities, it has become even more important that the tactical option be available.

The need for a standardized tactical option is more important today than ever before. This organization must be well trained, well equipped, highly motivated and able to conduct a variety of tasks in various environments at a moments notice.

The SRO must also be able to operate within many different environments. These include rural and urban areas in all types of weather and terrain. The SRO must also provide a response package that can react with the ability to hold and await further assistance from other supporting elements (mutual aid) or resolve the current situation if the need arises.

SRO-TAP Concept

The Special Response Organization (SRO) must be able to respond to a wide range of high-risk incidents and be able to provide skilled and competent operators for various specialized tasks. These can include but are not limited to:

- Hostage Rescue
- High Risk Searches
- Barricade Incidents
- Active Threat/Shooter Incidents
- Counter-Terrorism (CT)
- Anti-Terrorism (AT)
- Maritime Counter Terrorism (MCT)
- Counter Drug
- Security of Key Installations
- Special Event Support/Management
- Protective Security Detail (PSD) Operations
- Disorder Management
- Search and Rescue
- Crime Suppression

SRO-TAP Concept

The Special Response Organization Training and Advisory Program (SRO-TAP) evolution process is as follows:

- ① Organization Leadership/SECURUS LLC Staff conduct a detailed Overview/ Assessment of the Organization
- ② Organization Leadership/SECURUS LLC Staff develop (3) year long/short/annual Training Plan to include initial Foundation Training Plan
- ③ SECURUS LLC conducts identified initial Foundation Training Programs
- ④ SECURUS LLC conducts monthly Sustainment Training w/Evaluations/Validations as required
- ⑤ SECURUS LLC conducts Specialized Courses of Instruction (SCOI) as required
- ⑥ SECURUS LLC conducts end of training year Evaluation/Validation Exercise
- ⑦ Organization Leadership/SECURUS LLC Staff conduct end of training year Debrief/ AAR and update the current (3) year Training Plan as required
