

Fiber Closures

COMMSCOPE®

For Access Networks

The **Galloway Group** provides the complete Commscope solution.

- Antennas
- Cabinets, Panels and Enclosures
- Cable Assemblies
- Cable Management
- Cables
- Connectors
- Faceplates and Boxes
- Networking Systems
- Splitters, Combiners and Multiplexers
- Tools and Accessories

Fiber Closures

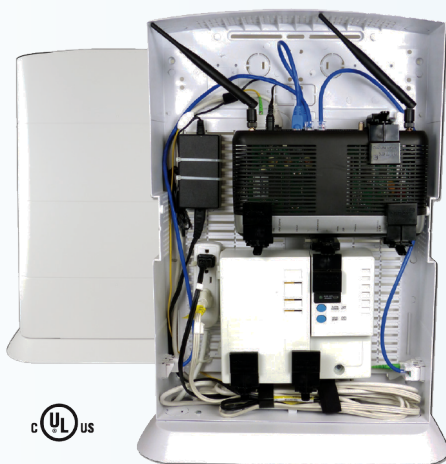

Verge PR2300

Media Distribution Enclosure

Freestanding or wall-mounted, the installer-friendly Verge PR2300 is ideal for fiber retrofits where no existing in-wall solution exists.

Dimensions

Inside H 21.4"/W: 14.6"/D: 4.7"

P2000FCC

Fiber Cross Connect

The P2000FCC Fiber Cross Connect is a multi purpose enclosure with a large inner cavity that provides ample room to work in and is ideal for FTTP, FTTH, telecom, CATV, or custom applications. Designed to accommodate active or passive components in a compact design that can be pre- configured to terminate up to 48 fibers.

Galloway Group and Commscope provide all the connections you'll need for a successful project.

A family of closures designed for your fiber network needs!

FOSC 450 fiber optic splice closures are a family of single-ended closures designed for use most anywhere there are fiber splicing and storage needs. These closures are available in five sizes, each featuring:

COMMSCOPE®

450 A

Smallest of the FOSC 450 closure family

450 B

The mid-size FOSC 450 closure

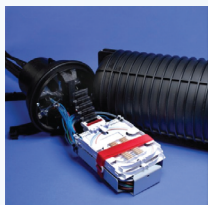

450 B Short

One of the smaller 450 closures

450 D

The largest of the FOSC 450 closure line, the 450 D is capable of handling a wide range of fiber closure needs

450 C

Combining the well accepted FOSC 450 D closure with a short overall length (23"), the 450 C fits applications where increased splice capacity and small size are a must
