Overview

Our mission is to empower government agencies with tailored technology solutions. 6M combines the agility of a small business with experience, responsiveness and dedication. Our team collaborates with you through every phase of your project, ensuring resiliency and flexibility in our solutions.

Core Competencies

SYSTEM INTEGRATIONS: Custom design, implementation, and support using top-tier API and middleware solutions like MuleSoft, Oracle, AWS, and Azure helps ensure seamless connectivity and optimized performance.

AI SOLUTIONS: Design intelligent automation and decision-support solutions that enhance efficiency, streamline workflows, and uncover insights, assisting in generating outcomes through trusted data-driven insights.

DATA MIGRATION (ETL): Develop custom and repeatable data extract, transform and load solutions to assist in smooth transitions throughout the migration lifecycle.

DATA & ANALYTICS: End-to-end data management services, including data processing, analytics, and reporting designed to help enable data-driven decision-making and response times.

IT CONSULTING: Strategic IT consulting services to assist in aligning technology with objectives, optimizing processes, reducing costs and improving performance.

CLOUD SOLUTIONS: Expertise to help boost productivity and efficiency by providing services including management, development and optimization within AWS, Azure and Google Cloud.

Key Differentiators

- **70+ years of experience:** application development, databases, data migrations, and IT consulting
- **Experience in Federal and DoD contracting:** Custom and OTB software solutions
- **Expertise in regulated industries:** Life Sciences, P&C Insurance and Manufacturing
- **System knowledge:** CRM, ERP, Document, Quality, Process and Learning Management

Past Performance

Top 3 Global Pharmaceutical Company – Data Migration
- Planning, analysis, development, and execution of two migrations for:
  - 3 million+ documents and records from 2 legacy on-prem DMS to a single cloud system
  - 15 million+ records migrated from 3 legacy LMS to single cloud system

Biotech Company – Data Management and Analytics
- Implementation of a reporting platform for centralized data
- Custom reports and dashboards to provide a holistic view of compliance performance in one place. Provided on-going support

Multinational consumer goods company – System Integration
- Integrated Regulatory to Quality Management systems to provide real-time creation of Registrations, Application, Dossier, Dossier Packaging, and Regulatory Objectives

Founder's Experience

IAP Worldwide Services – IT Management and Consulting
- Provided consulting services to delivers mission-critical support and solutions
- Management of global development, infrastructure and database teams
- Implementation and support of DMS, QMS, CAPA and infrastructure for base operations
