

Fat Squirrel Outdoor Co Activity Days

Give your school children the space to learn through play and adventure

fatsquirreloutdoor.co.uk

Reconnect outdoors with nature and with each other

Fat Squirrel Outdoor Co provides woodland space with adventure based activities designed to help all ages re-connect safely, grow in confidence and build self-esteem.

We believe that when people have fun outdoors, they develop better problem solving, communication and team building knowledge.

Build skills and memories that will last a lifetime.

The Fat Squirrel Outdoor Co team

Activity days

Give your pupils the opportunity to play, explore and learn in our woodland. We offer a range of creative and team building activities that engage and encourage learning. Our activity days can also be used to help you manage Covid-19 school numbers.

Alternative residential

The Pandemic has robbed a lot of children of the opportunity to go on a residential this year. We can offer an alternative option with engaging activities finished off with songs around the campfire. In the current circumstances, we can't provide camping, but this is the next best thing.

Managing COVID-19

All of our activities have been Covid-19 risk assessed. Our woodland has a series of fire shelters capable of hosting up to 6 people in a bubble. We have a number of foot pump operated handwashing stations to facilitate frequent washing. We can work within your school's own social distancing measures to ensure the children enjoy some safe activities outdoors.

Example alternative residential

Approximate timings	Day one activities	Day two activities
