

Fat Squirrel Outdoor Co Team Days

Relight the fire in your team

fatsquirreloutdoor.co.uk

Reconnect outdoors with nature and with each other

Fat Squirrel Outdoor Co provides woodland space with adventure based activities designed to help all ages re-connect safely, grow in confidence and build self-esteem.

We believe that when people have fun outdoors, they develop better problem solving, communication and team building knowledge.

Build skills and memories that will last a lifetime.

The Fat Squirrel Outdoor Co team

Build team communication skills

After months of only talking to colleagues online it is good to spend time in the same place. Bring your team to our woodland for some team challenges to improve working relationships and communication skills.

Time to relax and reward

Work has been tough for many this year. If your team deserves a treat then we offer a different sort of outdoor entertainment. Come throw some axes or shoot rifles, then eat around campfire, relax and catch-up.

Managing COVID-19

All of our activities have been Covid-19 risk assessed. Our woodland has a series of fire shelters capable of hosting up to 6 people. We have a number of foot pump operated handwashing stations to facilitate frequent washing.
