# WELCOME TO THE WONDERFUL WORLD OF SALT THERAPY

Salt Therapy is one of the fastest-growing segments in the SPA and Wellness Industry. Every year hundreds of new salt therapy facilities are developed and brought online, proving to be one of the most profitable segments. Moreover, the latest product developments make the integration of Salt therapy an easy process and a very affordable investment.

We stand proudly as founders of Salt Therapy in the US and innovators who continuously bring new products and solutions to life. Since 2009 we have helped hundreds of small business owners start their own Salt Therapy businesses or add Salt Therapy to existing businesses. Through the Salt Therapy facilities we owned and operated, we brought help to tens of thousands of clients.

- Together with our European partners, as an answer to COVID-19 restrictions, we developed the first line of **portable and affordable Halogenerators**, making building a smaller salt room (up to 250 sq ft) more accessible, easier, and faster, saving up to \$10K/salt room build along the way.
- We developed our proprietary **green technology for installing salt on the walls/ceiling** using our unique salt binder, making salt installation for the first time a DIY process.
- Subsequently, we developed the first **DIY Salt Room installation kit** in the US market- a complete package allowing small business owners to build their salt rooms using our line of products and know-how.
- We developed our proprietary technology for **manufacturing Himalayan salt panels** that brings vast savings and fantastic design options.
- We created easy DIY methods for assembling Himalayan salt brick walls and panels using glue-free methods, making the process a DIY one, quick and safe. Our approach allows the **recovery/move/reuse/resale of 100% salt bricks, salt panels, and equipment**.
- **Through our low prices**, we keep our commitment to promoting and making Halotherapy affordable so everyone can enjoy its benefits regardless of economic status

# SALT BINDER FOR DIY SALT ROOMS CONSTRUCTION

Developed after over nine years of research, our proprietary salt binder is defined by four key elements:

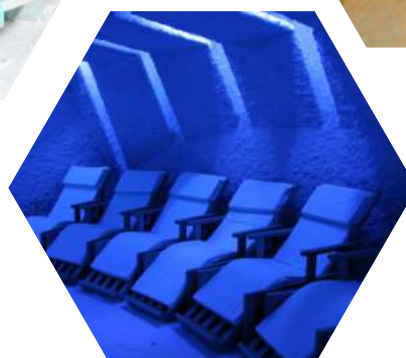

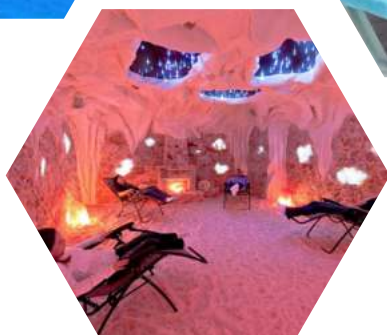

- Green technology - safe to work with and 100% ecological - only pure sodium chloride is exposed to the environment, enhancing the curative effects of Halotherapy
- Easy to apply, even over existing painted drywall, plywood, concrete, etc.
- No special skills are required - It takes only three days to complete a salt room as a DIY process.
- Economical - at only \$5/sq ft of salt room wall, building a salt room is an affordable, easy-to-build, and rewarding investment

**Our salt binder comes with step-by-step installation guidance and FREE advice in building/operating the salt room.**

**JUST ADD WATER!**

**\$5/sq ft**

**Our \$4950 DIY salt room kit comes with professional Halogenerator, salt binder and step by step technical advise in building/operating a salt room**

# SALT DÉCOR

## HAND-CRAFTED HIMALAYAN SALT PANELS

- Our 22"x 22" salt panels are made from pure Himalayan salt using a proprietary technology
- Can be installed as a DIY job on any wall and framed with LED backlighting. DIY kits are available.
- Variety of fine and coarse grains small chunks/pebbles, and larger chunks.
- ALL panels we manufacture are easy to install (screw in), and easy to remove and reinstall or sell.
- **Huge savings: each panel replaces about 16 Himalayan salt bricks 8'x4'x2'**
- Salt panels are the best way to create astonishing salt decor, as a DIY job, at very affordable costs

# BUILD YOUR OWN SALT ROOM/HIMALAYAN SALT CAVE!

## HIMALAYAN SALT BRICKS AND WALLS

**HIMALAYAN SALT BRICKS** are the second most popular (after salt panels) design used for salt rooms/caves.

- Our proprietary method allows for building of salt brick walls as a glue free, quick, DIY process.
- Salt bricks walls built this way are 100% recoverable, can be easily dismantled, moved and rebuilt in another location or even sold
- We have available DIY salt walls complete kits with backlit lights included - please call/email with your exactly dimensions of salt wall in order to receive an accurate quote.

DIY Himalayan salt bricks wall with mounting system and lights - \$60/sq ft

Himalayan salt rocks and stones for salt caves/rooms - \$2/lb

- **Pure Himalayan salt rocks and stones** come in various shapes and sizes and are used for design elements, building salt walls and salt caves. The design options are endless.
- Both salt rocks and stones come with one or two sides cut flat for an easy attachment to the wall and for covering larger areas of the walls - virtually halving the necessary of materials
- With our rocks and stones purchase, we offer installation advice, also we have available adhesive for installation

Salt bricks 8x4x2 \$7
