Comments:

1. What was the best thing about this course; what made it a valuable learning experience for you?

He's a brilliant teacher, I didn't like the subject matter that much, but he did the best he could at still making the class interesting & stimulating. Statistics are very relevant in today's world, so learning how to code & read charts will be an asset in my life going forward.

2. What did you not like? What could be improved?

The Math. I'm not sure you could "improve" anything - the subject is just difficult.

3. Is there one *helpful* thing you'd want to say to your instructor that might have made the course a better experience for you?

He's awesome. Fair. No complaints!! 😊
