

YOUR PARTNERS IN REMOTE + CARE

Kismet Risk Management Associates (KRMA) has joined efforts with **Optimed Health Partners (Optimed)**, a preferred provider for remote infusion therapy, to support our self funded health plan clients and members with alternative sites for care to **reduce the risk of exposure to COVID-19 and other illnesses**, while supporting the health systems from becoming over-burdened with limited resources. We are working together to **provide safe, convenient and cost-effective services within the comfort of the patient's home**. Through combined capabilities, accreditation, and clinical care expertise, our teams are here to help during this time of need and to support patients on their treatment journey.
