Patient Testimonial

"In May 2008, Dr. Harley inserted the pellet or 'rice', and within two weeks I felt better. My memory improved. I had more energy and could sleep soundly. By June, my libido came "roaring back!" I now have the energy to work out again and lost 30 pounds and dropped one and one-half dress sizes." – K.H.

BIOGENIE BODY CONTOURING

Biogenie technology works non-invasively by targeting detoxifying micro-currents directly to cellular fluids and fat cells, drawing them to the lymphatic system where the body naturally rids itself of them. Our body contouring system encourages lymphatic drainage and can help to reduce chronic inflammation, stimulating internal healing of the body.

The aesthetic result is tighter, firmer and smoother skin with a more sculpted, lifted and defined appearance.

It's an excellent solution for detoxifying the lymphatic system to enhance your quality of life and create a more youthful looking body.
