

Scenario 1

A young girl who appears to be from East or Southeast Asian descent is sat in your train carriage. There are a couple of other people in the carriage including a man who appears to be staring at her. The man starts to make comments about Chinese people as he gets up to move to a seat closer to her. He starts making racist comments about Chinese people directly to the girl and is becoming increasingly aggressive. Somebody else on the train stands up and tells him to F-off but this seems to make him more aggressive.
