4-H & FFA

The Junior Department is for young people who want to enter exhibits at Fairs. There are a number of organizations who want competition for their members beyond their own organization. The Fair can do this by establishing divisions and classes for groups such as FFA and 4-H and others. The Fair will provide the opportunity for young people to exhibit who are not members of an organization.

The Fair can do this in several ways. They can let the young person compete in the appropriate class in direct competition with an organization member. If there are enough "independent juniors" to form a class they can form separate classes for these independent juniors. In a livestock class the independent exhibitor must meet the age and ownership requirements if they are in direct competition with members of an organization.

Livestock exhibitors are limited to residents of the 54th District Agricultural Association or members of 4-H or FFA recognized clubs of the 54th District Agricultural Association.

Eligibility and Age Requirement:

FFA Members: FFA members may participate as a member until the end of the calendar year of graduation from High School. (For example, a graduate this year is eligible until December 31st of this year). However students enrolled in a National or State Master's program may continue to participate until the end of the year following year of graduation from High School with the approval of the Board of Directors.

4-H Members: Primary members must be 5 years old or in Kindergarten as of January 1, 2018 to exhibit at fair. Primary membership ends when members qualify as junior members. Exhibitors who are under 9 years of age of January 1, 2018 are not eligible to compete in large animal competitions at California Fairs. Juniors must 9 years by January 1, 2018. Juniors in third grade must furnish a copy of their birth certificate to the Fair

Office prior to January 15, 2018. Senior may continue to participate until the end of the calendar year of graduation from High School.

Independent Junior Livestock Exhibitors:

Independent Junior Livestock Exhibitors must enter open classes unless one is not available. Age requirement for Independent Junior Exhibitors are as follows.

They must be at least 9 years of age and they must be under 18 years of age as of January 1, 2018. If in third grade they must furnish a copy of their birth certificate to the Fair Office prior to January 18, 2018. Independent Junior Livestock Exhibitors must comply with all entry requirement required for 4-H and FFA exhibitors and must have an adult supervisor who is qualified to provide safe and useful training concerning the exhibit to the exhibitor.

GENERAL STATEMENT

Fair Management may provide separate divisions and classes as desired for FFA, 4-H youth programs, or other recognized junior farm groups. Divisions which apply exclusively to the Junior Department have been provided on the following pages.

Fair may offer divisions and classes restricted to children under 18 years of age who are not in FFA or 4-H programs. Fair management will establish classes and premiums. These divisions shall appear under the heading of "Young Adult", "Junior", and "Blue Ribbon Kids".

Exhibitors who are enrolled in any Junior Organization for which classes are offered elsewhere are not eligible to enter articles in these divisions.

All items in the "General Information – Regulations, Entry Requirement and Local Rules" shall apply.

4-H YOUTH DIVISION

4-H Youth programs are non-formal voluntary education programs under the supervision of the Cooperative Extension Service of the University of California and the United States Department of Agriculture. They are part of extension teaching. The projects exhibited at the fairs by members of these groups are the result of their efforts under the supervision of volunteer adults.

FFA

The FFA is a national organization of students enrolled in High School Agriculture Education classes. The unit is the chapter in each High School offering Agricultural Education, under the supervision of the Agriculture Teacher who is always the local chapter advisor. The State Unit includes all chapters in the State, under the supervision of the Department of Education, as represented by the Bureau of Agricultural Education, with its headquarters at the State Education Building, Sacramento, California. The National Unit is the group of Associations in each State and Puerto Rico, under the supervision of the Agricultural Education Division of the U.S. Office of Future Farmers. Projects in Livestock, Poultry, Fruit or Crops are part of the practical education of the Agricultural Education student who owns it. Participation in fairs and livestock shows is recognized as having educational value as well as stimulation for better results and finer project, under the supervision of the Qualified Chapter Advisor and with the cooperation of Fair Management.

DANISH SYSTEM OF JUDGING

The Danish System of Judging is based upon established standards of quality for each type of produce. In this system each exhibit is judged according to how well it meets the standard rather than how it compares with other exhibits. In all Junior NON-LIVESTOCK departments using the Danish System, the following guidelines will be used.

<u>1st Group</u>	<u>Superior</u>	<u>92-100</u>	<u>Blue</u>
<u>2nd Group</u>	<u>Good</u>	<u>84-91</u>	<u>Red</u>

<u>3rd Group</u>	<u>Average</u>	<u>70-83</u>	<u>White</u>
<u>4th Group</u>	<u>Below</u>	<u>Below 69</u>	<u>No</u>
	<u>Average</u>		<u>Award</u>

STATE AND LOCAL RULES

State Rules and Health Regulations apply to all Junior Department entries EXCEPT WHERE SUPERCEDED BY LOCAL RULES.

County, District and State Fairs cannot legally carry liability insurance covering Junior Exhibitors and/or their exhibits. **Liability insurance is the responsibility and at the discretion of the Junior Exhibitor. Therefore, it is suggested that Junior Exhibitors consider taking out a liability policy covering themselves and their exhibits.**

The California Department of Agriculture assists and encourages youth to get involved in the educational process by conducting local, regional and national livestock shows that are judged according to contemporary standards of excellence.

The Fair Management has the right to limit entries to facilities available and/or cancel any division or class in which there are not enough entries. The decision of the Fair Management under this rule is only applicable to the Chief Executive Officer, whose decision is final. Adequate competition exists when there are at least five (5) entries in a class. Grand Champion and Reserve Champion must come from a class of five (5) or more entries. When competition does not exist, the fair may combine classes for meaningful value if appropriate for learning. (Rule waived for 2013 Fair with the exception of small animal.)

All market classes are to be determined after weigh-in, classes are to be determined by weight only. Only one (1) weigh-in allowed, except for protests, which must be re-weighed immediately. No wet animals will be allowed on the scales and no animals overly fatigued or stressed will be weighed.

In Market Large Animal Classes the TOP END WEIGHTS OF SHEEP (150 lbs.), BEEF (1325 lbs.), SWINE (270 lbs.) and GOATS (110 lbs.) have been opened up and animals exceeding these former weights are allowed to show and sell if meeting standards, however, the aforementioned weights represent Auction Maximum Weights

Animals not meeting weight requirements may stay for Showmanship Classes. **Minimum Weights; BEEF (1000 lbs.), SWINE (210 lbs.), LAMBS (100 lbs.), and GOATS (60 lbs.).**

4. No replacement shall be allowed unless the deceased animal has been autopsied by a Veterinarian at the cost of the project member or the Veterinarian deems that there would be no

useful purpose served in the animal being autopsied and that the animal's death could not be attributed to lack of care or any abusive action on the part of the owner. The Veterinarian must state a cause of death. The autopsy, if required, shall include any tests or toxin screens deemed necessary by the Veterinarian to establish cause of death. The replacement animal may be purchased with the approval of the CEO of the Colorado River Fair, prior to all necessary test results being completed but may not show or sell unless cause of death has been deemed not to have been caused by, or as the result of, anything that the project member has or has not done to that animal. Should the tests show, or the Veterinarian suspect animal abuse, the case shall be turned over to the proper authorities for investigation of possible prosecution.

5. The time limit for the replacement of deceased lamb, goat or pig shall be no less than thirty (30) days from the first day of fair. The owner must contact the CEO of the Fairgrounds within twenty-four (24) hours of the death of the animal and with his approval shall have seven (7) days from the date of death of the project animal to replace it. Any Animal that dies less than thirty days from the first day of fair may not be replaced.
6. Replacement animals may not have been shown in any fair or livestock show. Replacement animals must be purchased from a producer or from a local member with a tagged back up animal (back up animals preferred). A bill of sale must be presented to the Fair immediately after purchase. The animal may be tagged or recorded in the case of a tagged back up animal.
7. The replacement animal must be deemed safe to show by the Livestock Superintendent prior to weigh in. The project member must demonstrate his or her ability to control the animal.
8. The replacement animal must be of the same specie as the animal that dies.

9. The replacement program shall be void if the project member has another specie of large animal that has been tagged for fair (i.e.: two specie tagged, goat and lamb, two projects. Only one could have shown). The project member must show the other specie.

10. The replacement program shall be void if the project member has a backup animal of the same specie as the animal that dies.

In the case of the death of a project animal less than thirty days prior to fair the project member may, if the regulations in item 4 are complied with and the CEO of the Fairgrounds notified within 24 hours of the death of that animal, buy and show a replacement animal in Showmanship only.
