Welcome Wish Family!

More than 40 years ago, an 8-year-old boy named Chris wished to be a police officer. This simple wish was the beginning of Make-A-Wish® and the motivation for hundreds of thousands of wishes that would follow. The power of a wish extends beyond a moment. When a child learns they can have a wish come true, they begin a journey that replaces fear with confidence, sadness with joy and anxiety with hope. We are excited to get to know your wish kid and discover what would fill them with joy. This guide can be used to inspire your wish kid, to think about different wishes and to explore their imagination.
