**REQUEST FOR PROPOSAL
for
DEBRIS MONITORING SERVICES**

The Grant Parish Police Jury invites qualified firms to respond to this request for proposal (RFP) by providing their qualification and experience for consideration to provide Disaster Debris Monitoring Services on an as-needed basis.

The Grant Parish Police Jury seeks qualified firm(s) to assist in the monitoring of disaster debris collection and disposal operations on behalf of Grant Parish, ensuring compliance with Federal requirements and applicant debris management plans as related to contractor oversight, truck measurements, load ticket preparation and issuing, report preparation and project administration. The Debris Monitoring Contractor shall provide all management, supervision, labor, transportation, and equipment necessary to initiate load tickets at debris loading sites, estimate the volume of debris (in cubic yards) being delivered by trucks to each DMS/disposal site, and support the operations of the field supervisor(s), debris loading and tower/site monitors, and clerical staff.

The RFP should be limited to 5 pages and address the following:

- Office location and key personnel responsible for this project
- Evidence of satisfactory completion of disaster debris monitoring in the past 5 years at similar jurisdictions
- The scope, project budget, and operational duration (include the firm's contract manager, and phone number and e-mail address for each disaster response or project if available)
- Summarized past relevant experience for each response should include the following:
 - Type of disaster—hurricane, tropical storm, tornado, etc.
 - Type of jurisdiction—city, county, district, or combination
 - Collection debris monitoring assignments
 - DMS debris monitoring assignments
 - Final disposal debris monitoring functions
 - FEMA reimbursement actions and issue resolution
 - List of references

Any material received that is not requested may be discarded.

Interested firms should submit their proposal by email to:

**GRANT PARISH POLICE JURY
c/o Sissy Pace, Secretary / Treasurer
jessie.pace20@gmail.com**

Submittals **MUST BE RECEIVED** no later than **8:00 p.m. on Monday, August 31, 2020**. Late or misdirected submittals will not be accepted.

Scope of Services for Debris Monitoring Services

General

Provide debris monitors and debris monitoring services to assist the Grant Parish Police Jury with monitoring the operations of the disaster debris removal and disposal contractor(s). The debris monitoring services to be provided are contract compliance, and supervision and inspection. All debris monitoring activities are to be in compliance with current FEMA guidance and local, State, and Federal regulations. Debris sites will operate approximately 12 to 14 hours per day, 7 days per week.

Pre-event Requirements

Contractor will provide assistance in preparation for disasters through participation in meetings and workshops and the establishment of data management and other integrated systems.

Contractor will, at no additional cost to the Grant Parish Police Jury;

- Provide a list of key personnel and subcontractors that may be involved in the disaster debris monitoring activities to include facsimile, cell phone numbers, and e-mail addresses.
- Participate in annual workshops or planning meetings with the Grant Parish Police Jury representatives and debris hauling and disposal contractor(s) to establish/review applicable policies and procedures.

Post-Event Requirements

Contractor will assist with load inspections for storm debris cleanup being performed by one or more debris hauling and disposal contractors or the Parish.

Contractor shall supply sufficient number of trained debris monitors and trained field supervisors to accommodate the volume of debris to be removed at loading sites and debris management sites or final disposal sites.

Contractor shall remove and replace employees immediately upon notice from the Parish for conduct or actions not in keeping with the contract.

Personnel Requirement and Responsibilities

Debris Monitoring Field Supervisor

Consultant will provide one debris monitoring field supervisor for debris loading site monitors. Services include, but are not limited to:

- Overseeing and supervising loading site and disposal site debris monitoring activities
- Scheduling debris monitoring resources and deployment timing
- Communicating and coordinating with Parish Personnel
- Providing suggestions to improve the efficiency of collection and removal of debris
- Coordinating daily activities and future planning
- Remaining in contact with debris management/dispatch center or supervisor
- Identifying, addressing, and troubleshooting any questions or problems that could affect work area safety and eligibility
- Supervising the accurate measurement of load hauling compartments and accurately computing volume capacity in cubic yards (CY)

- Documenting and recording measurements and computations
- Documenting truck hauling compartment condition using digital photographs
- Preparing a master log book of all hauling equipment used by the Parish's debris removal contractor
- Compiling, reconciling and documenting daily, in an electronic spreadsheet format, all eligible debris hauled by the debris removal contractor(s)

Debris Monitors

Consultant will provide trained debris monitoring personnel to oversee the loading of eligible debris at collections sites and verification of load capacity and documentation at designated temporary debris management or final disposal sites. Services include, but are not limited to:

Consultant will perform on-site, street level debris monitoring at all contractor loading sites to verify debris eligibility based on the monitoring contract's requirements and initiate debris removal documentation using load tickets. Services include, but are not limited to:

- Providing trained debris monitoring personnel at designated loading sites to check and verify information on debris removal operations
- Monitoring collection activity of trucks
- Issuing load tickets at loading site for each load
- Checking the area for safety considerations such as downed power lines and children playing in the area, and ensuring that traffic control needs are met and trucks and equipment are operated safely
- Ensuring that Freon-containing appliances are sorted and ready for Freon removal on-site or separating transport for Freon removal before final disposal
- Performing a pre-work inspection of areas to identify potential problems such as covered utility meters, transformers, fire hydrants, mail boxes, etc. to mitigate damage from loading equipment
- Documenting damage to utility components, driveways, road surfaces, private property, vehicles, etc., should it occur, with photographs (if possible, collect information about owner, circumstances of the damage [who, what, when, where] and report to field supervisor)
- Ensuring the work area is clear of debris to the specified level before equipment is moved to a new loading area
- Properly monitoring and recording performance and productivity of debris removal crew
- Remaining in regular contact with debris management/dispatch center or supervisor
- Ensuring that loads are contained properly before leaving the loading area
- Ensuring that only eligible debris is collected for loading and hauling
- Ensuring that only debris from approved public areas is loaded for removal
- Performing other duties from time to time as directed by the debris management project manager or designated debris management personnel

Debris Tower/Site Monitors

Consultant will provide debris tower and site monitors to verify estimated quantities of eligible debris hauled by contractor trucks and documented on load tickets. Services include, but are not limited to:

- Providing trained debris monitoring personnel to accurately measure load hauling compartments and accurately compute volume capacity in CY for all contractor trucks and trailers prior to commencement of debris hauling operations
- Documenting measurements and computations
- Completing record contract haulers' cubic yardage and other recordkeeping as needed on the load ticket
- Initialing each load ticket before permitting trucks to proceed from the check-in area to the tipping area
- Remaining in regular contact with debris management/dispatch center or field supervisor
- Performing other duties as directed by the dispatch/staging operation, debris management project manager, or other designated personnel

Clerical Staff/Data Entry Staff

Consultant will provide clerical staff/data entry staff as required to implement and maintain a disaster debris management system linking the load ticket and debris management site information, including reconciliation and photographic documentation processes, to enter load ticket information into the contractor's information management systems and to supervise the preparation of detailed estimates for submission to the Parish and to provide periodic reports to the Parish, noting work progress and efficiency, current/revised estimated, project completion, and other schedule forecasts/updates.

Terms

The work shall begin on notice to proceed and continue for no longer than 60 days, unless extended by the Grant Parish Police Jury with 10 days written notice.

Deployment

Consultant must be prepared to deploy debris monitors within 24 hours from the notice to proceed. When additional debris monitoring is needed to meet requirements of the monitoring contract, consultant shall be prepared to increase the number of debris monitors for the Parish to use as needed.

COST PROPOSAL FORM

The hourly labor rates shall include all applicable overhead and profit. All non-labor related project costs will be billed to the Parish at cost without mark-up.
