Section 1: To create and amend sections of the Internal Revenue Code (26 USC)

I am asking for this specific definition of “Low-Income Community” to be added to law so we can make much of the aforementioned mechanics work:

Creating 26 USC § 45D(e)(6)

The term “Low-Income Community” shall also mean any county located within a state with a poverty rate higher than 15 percent as of the last annual census of the United States, that was comprised of 30 percent or more of federal lands, with exception to those federal lands owned through the Department of Defense with an active military installation thereon, as of December 31, 2024, located within the State of Louisiana. Should a County or Parish merge with another County or Parish, both shall be entitled to this definition even though only one County or Parish may have triggered it.

Or,

Creating 26 USC § 45D(e)(4)(C)

The term “Low-Income Community” shall also mean any census tract located within a county within a state with a poverty rate higher than 15 percent as of the last annual census of the United States, that was comprised of 30 percent or more of federal lands, with exception to those federal lands owned through the Department of Defense with an active military installation thereon, as of December 31, 2024. Should a County or Parish merge with another County or Parish, both shall be entitled to this definition even though only one County or Parish may have triggered it.

Creating 26 USC § 45D(e)(6)

Or,

The term “Low-Income Community” shall also mean any county located within a state with a poverty rate higher than 15 percent as of the last annual census of the United States, that was comprised of 30 percent or more of federal lands, with exception to those federal lands owned through the Department of Defense with an active military installation thereon, as of December 31, 2024. Should a County or Parish merge with another County or Parish, both shall be entitled to this definition even though only one County or Parish may have triggered it.

Creating 26 USC § 45D(e)(6)

This makes Grant Parish the only Parish/County/Borough that I know of that would qualify under this Act. However, other counties/parishes may already meet the definition and thus qualify for the tax benefits later described in this Act.

Creating 26 USC 45D(e)(6)(a)

(a) All local government entities, including municipal governments, and county/parish/borough level governments shall have their financial years adjusted to a June 30 close, after which the external audit on their finances shall be prepared and communicated to their voters by mid-October. Also, a copy of the findings of the latest Department of Justice Criminal Division Legal Examination of the internal

and external legal functions report shall be mailed to voters, which must be conducted once every two years.

(b) Audits and Examinations of Legal Reasoning. The external financial auditor to all local government entities, local Nonprofit Corporations providing water, and also including municipal governments, and county/parish/burrough level governments shall be picked by the Chairman/Chairwoman of the Public Accounting Oversight Board of the United States of America. The external auditor shall be paid the fair market value of its services as determined by the PCAOB, by the audited entity.

(vii) The elections for the local government issues in a “Low-Income Community” defined in 26 USC § 45D(e)(6); for Non-Profits that provide a utility service in a “Low-Income Community” defined in 26 USC § 45D(e)(6); for local offices and for state offices that apply thereto such as District Attorney or District Judge; and all Federal Offices within a “Low-Income Community” defined in 26 USC § 45D(e)(6) shall be held by an Oregon-style mail-in ballot, with the tabulations provided by the statewide elections supervisor in the applicable State, whom shall also determine voter identification requirements.

2) Amending 26 USC § 45D(e)(5)(B)

For purposes of this paragraph, the term “high migration rural county” means any county which, during the 20-year period ending with the year in which the most recent census was conducted, has a net out-migration of inhabitants from the county of at least 10 percent of the population of the county at the beginning of such period.

3) Creating 26 USC § 45D(b)(11)(B)(iv)

“a county described in 26 USC § 45D(e)(6), which shall also be given the same status as if it was a census tract described in 26 USC § 45D(b)(11)(B)(iii)(II)”

This would also utilize the same language provided in prior allocations for Certifications, Credit Rate Conditioned Upon Wage and Apprenticeship Requirements, Prevailing Wage Requirements, and Apprenticeship Requirements used in (e) Additional Allocations.

6) Creating 26 USC § 1400Z-1 (b)(1)(c)
