10. Enter Scores - Puts match in scoring mode.

Notes

1. PS2 runs in 2 modes:
 1. Match Creation – Matches may be edited using the 3 button icon on the left of the match on the “Match” screen until a score is entered or the tablet is synced. Either of these actions automatically moves the match to Scoring Mode.
 2. Scoring Mode – Only shooters, divisions and scores may be edited leaving an audit trail.
2. If the screen stops responding during a match, restart the tablet by holding down the power button.
3. Should the tablet run out of battery during a match nothing is lost. There are auxiliary batteries in the ammo can in the office. Get a battery and cable and continue to score the match normally.
