Take the tour

This multimedia tour provides you with a brief overview of change and configuration management best practices and introduces you to the capabilities and benefits of Telelogic's award-winning CM solution. After watching the presentation, you can see SYNERGY in action by viewing our role-based demonstration.

During this presentation and tour, you'll learn how SYNERGY provides Telelogic customers with:

- The easiest, most intuitive deployment and adoption of a CM system through ActiveCM's transparent version management, intelligent tool integration, active usage models and dynamic interaction, resulting in greater acceptance of automated CM among developers.
- The power to control the software development process from a single point, thus streamlining and
