

Stop the RV park!

Dear Editor,

I strongly urge the Milton Township Planning Commission to deny the second application for a Special Use Permit to develop an RV Park near the Torch River Bridge. If the permit is granted it will open the door for any other developers to: 1. Begin developments without proper permit; 2. Flout local regulations written to enhance communities and protect delicate environments; 3. Thumb their noses at what local residents want for their communities; 4. Show no respect for our pristine waterways and delicate ecosystems; 5. Overtax existing infrastructures and increase costs for taxpayers; 6. Push their agendas using out of town lawyers; 7. Cause irreparable harm to one of the most beautiful lakes in the world; 8. Forever negatively change the atmosphere of communities in which they do not live; 9. Pollute neighborhoods with excessive noise and light.....all for the purpose of lining their own pockets. Stop the RV park!

Susan Severns, Rapid City
