

## EYE OF THE LORD IN CURRENT EVENTS

For those of you who have never prayed with this ministry or understand what we are about, this page may seem strange to you. It is an intercessory prayer page. Our Lord has an eye in prayer which we, as humans, do not have unless He gives it to us. This page, as it updates, will share items to pray for, which we may know nothing about yet.

For those of you who are not Christian and you landed on this page, click on the 'Jesus' Tab at the bottom of this page. That page will help you more than this page will. Click on the Prayer Request/Contact Us button and we can pray with and for you. Normally, we don't archive the 'Eye of the Lord in Current Events' prayer needs. I've always felt it was for a specific time. But the last Current Events will be archived because of the information it held concerning Israel and World War 3.

I realize the communists/globalists believe they will take over the world, thereby ushering in the anti-christ; we have to remember that God has seen this already and He has a plan. God, in His infinite mercy and understanding, is just waiting for every last one of them to become trapped in the noose He is hanging. Many believe He is so merciful that He will let them slide. No, He will not. Their time for repentance is getting shorter every day.

Not long ago, I asked the Lord what we should be praying about and He said, "War." I was shocked, but I knew immediately what He was saying to me. Since fall of 2022, He has been asking us to pray to avert war. I realize many think that had to do with China invading Taiwan, a country the communists have never ruled. Taiwan was set up as an independent democracy. It gives us great pause to think that in today's world one country can think they can invade another.

While many thought I was speaking about Taiwan, I was not only thinking about that situation. I was thinking about America. You might be silly enough to think that countries like China, Russia, Iran and North Korea would never think such a thing. Well, you would be wrong. That

is exactly what their long game is. From long ago China realized it would need “help” in destroying America. Their thinking was to have at least four adversaries for America to fight in order for them to take us over. The communists and socialists in this country have been doing their very best to see that come to pass.

Many think democrats would never invite suicide. Well folks, they don't see it as that. They think that their fellow “comrades” would never do such an evil thing once America is all socialist. They are fools and have been blinded by their own ideology. Socialism is communism in the long term. Mankind, once infected with its thought process will always crave more and more power. Every democrat is a socialist, whether they think they are or not, and we are not that far from losing the republicans to its thinking.

When Uncle Joe first got in office he didn't want to have to continue Trump's wall. So they got the numbers to avoid being forced to build the wall because foolish people still think democrats are patriotic and vote that way. They are socialist and vote like communists. In true nature, they put the wall up for a vote. They didn't have the numbers until a republican congressman from southern Alabama— Barry Moore— voted with the democrats, and voila, they did not have to spend a dime to protect us by finishing the wall along our southern border.

I couldn't believe it when I heard it got voted down and the way it was successful in opening the country up to the hell we are now experiencing was through a republican. And he has the chutzpah to try to run again. Oh, please, Alabama vote that idiot out. The rest is, as they say, history: sleeper cells, violent and terrorist “got-a-ways” flooding our country— not to mention the billions of dollars wasted on allowing people who do not belong here to stay here and bleed us dry by providing housing, food, education and healthcare for them.

This must stop or we will be overrun. We are truly getting ready to lose the country. A war would decimate us. And so that is the prayer concern for this time period: pray to avert war and return all the illegals out of our country. By some estimates the number is as high as 35 million.

Think about that number for a minute and think about all the illegals the democrats have lost and know nothing about who they are or where they are or what they are really doing in this country.

I'm sorry I couldn't make this prayer request more positive, but many citizens need a wake-up call because they are getting ready to lose their citizenship— not because this administration will take it away from them— but because this administration will never allow them to continue in the advantages their citizenship affords because they will have effectively given any benefits away to illegals who do not belong in the country. And when adversaries show up to invade, we will be so broke that we won't be able to defend ourselves. There may be a silver lining there somewhere— or at least a sick joke: illegals won't fight for the country, so they will leave in a mass migration. That's **if** the adversaries don't shut down the border first.
