NOVEMBER ELECTIONS

Personal Opinions
By Rev. Chris Meier

This election is serious. It is a choice between sending the country into criminality or enjoying what the Trump Administration has been able to accomplish in a short amount of time. Think about why you put Trump in office. People are complaining about fuel. Democrats shut down refineries under Biden. It can take years for them to come back on line— and Trump has opened them. It can take quite sometime for them to start to work. Vice-President Vance has said exactly that while on campaign stops. He is absolutely right. Of course, the Iran war doesn't help. We'll talk about that soon.

But one issue must be revealed: The media never let you know the peril we were in under Biden. The media has gone non-stop into how bad the economy is under Trump because they know the economy is his stronghold. Let me just remind all of us that Iran was two weeks away from being able to place nukes on new Russian planes that they had received six months prior. This is old news and is footnoted in previous articles on this website. I will only insert proof here if it is a new item, not footnoted previously in articles on this website. I wrote that article a few months back in 2026.

Let's just look at a few items that this administration has already accomplished. Trump has brought drug deaths down. They have fallen by around 80% and drugs coming into the country by sea

have fallen 97% and drugs brought in by land have fallen by 64%.

A Democrat running in Michigan is a Muslim. Abdul EL Sayed, is running as a Democrat for the American senate. Hold onto your hats for this one: He is a member of the Muslim Brotherhood. < https://freebeacon.com/democrats/abdul-el-sayed-headlined-luxury-fundraising-cruises-for-islamic-charity-linked-to-muslim-brotherhood > This makes him a security threat if the Republican loses.

The Muslim Brotherhood is an outlawed terrorist organization and is not allowed to function in the U.S. His mother is also a member of the Muslim Brotherhood and he himself has received $100,000 from Muslim Brotherhood backed organizations in campaign donations. What I found hysterical was this satire interview from the Washington Free Beacon. That they thought his opinion concerning women would receive this particular answer, that should give you an idea what Islam has put out to the world. I'm surprised the media hasn't picked up on it, even to criticize it. < https://freebeacon.com/satire/exclusive-qa-breaking-the-ice-with-abdul-el-sayed >

The Democrat running in Texas for the senate seat disappeared for 13 days. He said he had the flu…. Okay…. So it was just in time to miss certain scheduled events, but who knows? He did go to a CNN debate without his opponent and told everyone that abortion is 'okayed' by the Bible. He has tried to tell everyone what a long-term Christian he is. Thank the Lord a Christian who must have read the Bible told him that the Bible does not

condone abortion and told him exactly where to find that: The Ten Commandments, you know the very beginning of the book, and kinda a big deal for both Christians and Jews.

Look, there are medical and other specific reasons why a pregnancy has to be terminated. Those decisions should be between a woman and her family, doctor and spiritual advisors. But regardless of your belief on abortion, it is NOT condoned by the Bible. And if you were a long-term Christian, I would pray somebody told you that already.

This is the same guy who told everyone that God was non-binary— or was it binary? I can't even think about exactly what this guy was trying to convey. What I think he was trying to say to the populace was how much he knew about the Bible. I will say this, if he was trying to let folks know that God chooses to speak about Himself in the male vernacular, he is correct. If he was trying to let people know God is neither male nor female, he was also correct. God chooses to let us humans know He desires to be addressed in His relationship with us as male.

Again, as young Christians we are all taught this by our pastors and teachers. I teach this as well to our people. But if he was trying to make us think this "trans" issue is okay because somehow God is "trans," he better sit his butt down. God created us male and female and there are no questions about that. Do humans have problems in this area? Yes, humans do. We should pray for those engulfed in this area. Compassion, medical help and advice should be given. But God is not confused about how He wants to be portrayed.

Another crazy democrat candidate is the one for the senate in Florida. Angie Nixon, the Democrat, is nuts. I'm sorry for saying that. She wants the Republican senator locked up. For what? I have no idea. I'm not the only one to question her mental abilities. Brendon Leslie, the founder of Florida's Voice, a statewide news network, has called her a lunatic and I agree with him. How she came to my attention was when I got an opportunity to watch her during a legislative session when she walked around the legislative hall room with a bullhorn, shouting and screaming, somewhat indecipherable utterances concerning the legislative work being discussed. That's right, a legislative session was open and statewide work was being done. I believe they finally threw her out— I think they did, or she stopped shouting— I can't remember which now.

But our Republican Senator, Ashley Moody from Florida, has been the attorney general for the State of Florida— I believe she served for five or six years— I'm not quite sure. She stood with us during covid and she's been a great senator as well. Moody was sent by DeSantis to Rubio's senate seat when Trump appointed Rubio as Secretary of State.

Troy Jackson, a democrat candidate for senate in Maine makes a claim he's not funded by billionaires, yet he has been funded by four billionaires… Four! His FEC filings prove it. < https://www.nrsc.org/press-releases-/icymi-troy-jackson-discloses-campaign-donations-from-billionaires-two-days-after-saying-theres-no-billionaires-funding-me-2026-10-16 > He has told the incumbent Senator Susan Collins, to shut up during debates.

Well, that ought to make him feel good when he talks to a woman. I watched him take an interview recently with a woman journalist. It was embarrassing. He treated her like she was dirt. He was dismissive and obnoxious. The Republican incumbent senator, Susan Collins, is a quiet and perfect moderate for Maine. I like to see more of a firebrand in candidates I support, but that would not be good for Maine. Mainers have voted her in five times! And she has done a good job for Maine while she's been there. One true indicator is that a former Democrat senator, Joe Manchin, is campaigning for her! In the climate we're in right now in this country, we have several democrats campaigning for republicans because they don't want to see socialism taking over our nation.

Fraud and Runaway Taxation

Brooke Rollins, U.S. Secretary of Agriculture, just found new fraud in the SNAP Program. This program feeds American families and children. To find this amount of fraud in a program that feeds people is absurd. Uncovering this fraud is part of Vice President Vance's task force. Andrew Ferguson, Chairman of the Federal Trade Commission, is part of the task force as well, as it involves an all of government to do this kind of work. He made it very clear that he sees more of this in Democrat-held states. < https://www.foxnews.com/media/ftc-chief-accuses-democrats-trying-protect-fraudsters-withholding-data-trump-admin > If Democrats take over, all the fraud that has been uncovered will be ignored. President Trump's agenda has been to uncover and

eliminate fraud. DOJ, under Todd Blanche has started a search to focus on SNAP fraud.

They have uncovered $42 million in theft in the SNAP Program alone. This theft is done by stealing the money from the card it is placed on, among other avenues for theft. This fraud could have fed over 220,000 Americans. Todd Blanche tells a story of a woman with her children going to the grocery store. She was out of food and was shopping for dinner that night, among other days of food. She has a shopping cart full of food and goes up to the cashier and is told there is no money left on the card. She had to go and get a loan to feed themselves.

Do you want to go back to being over-taxed again? Democrats say they will do that. They want us taxed to death. Remember that Biden's inflation was baked into the cake. The Democrats do that very well so you never notice. And the media will never tell you. Inflation has fallen under Trump about 6 to 7 points.

One item that infuriated me under the Democrats was their "Inflation Reduction Act." It never reduced inflation, but it did increase your tax burden and they hid an increase in Medicare as well under its Part D section.

Another thing they did very well was steal money. When Trump brought DOGE in, they found fraud and foreigner theft in so many areas— not to mention the 90 percent plus thievery rate from the Somali community in Minnesota that this DOJ has prosecuted successfully. While on the subject of law enforcement, Democrats want to defund the police. I guess if

you're thieving the electorate, it makes sense to get rid of, or defund law enforcement.

On the topic of Trump himself, they confirm they will impeach Trump again and again until it sticks. Remember you voted for Trump and Democrats want to take that away from you. They want to take away your vote.

Take a look at immigration in Britain. It is unrecognizable as England. It has become a radical Muslim enclave. Many have said it is hostile toward its original citizens. The British government is on the side of the invaders. In England, the government is a socialist government, and is very akin to the Democrats in America. What we are seeing in the UK is an Islamic takeover. We must wake up. The Democratic Socialists of America are the same as communists. There is no difference. And they are closely linked with Muslims and muslim desires for America. This isn't about affordability. This is about power and control.

British citizens are being arrested regularly for speaking out. The very freedoms England championed are gone. Like dominoes falling, free speech is gone in the UK. British citizens are being arrested when they refuse to show police their cell phone logs. A man got two years prison time for defending his free speech. Within ten years of London getting a Muslim socialist mayor, rape gangs flourish. These gangs rape young British girls. Because the rapists are Muslim, they do nothing to stop them.

We just got a Muslim mayor in New York City. Already he's a disaster and a disgrace. How long will it take for America to go the same way if we allow the Democrats to take over the House and/or the Senate. ICE has found 157,000 children that the Biden Administration lost when they illegally brought in over 300,000 children. Not all the children are in danger, but many were being trafficked and are in danger.

Another area that will devastate the country is with law-fare. They have charged Trump so many times with supposed crimes. One of the charges was concerning his account he had under Twitter before it became X. They charged Trump because he said things that were mean and "wrong"! But what was found out when they uncovered the Democrats' work at getting Republican senators' and representatives' cell phones' call logs, was that regular people— like me and you, under Jack Smith— the lawyer the Democrats used to enact the law-fare, was that he broke into over 639k bank accounts of people who bought Trump hats and/or donated to the Republican Party.

You read that right. For those who used credit cards or checks, Smith got their account numbers to see if anyone did anything wrong— or is that the only thing he did? He got the cell phone records of forty senators and congressional representatives, 400 businesses or organizations. I'm not sure what buying a hat or making a donation as low as $1 could do to unveil crime, but that's what he did to try to expose conservatives. The bias under the Democrats is illegal.

Stealing and Mapping Conservatives

Jack Smith took info on people who donated money as low as $1 donation. He took GOP donor records that date back to 2005. It proves they were trying to map the GOP party. These went far beyond the original purpose of any possible need Smith had. Smith tried to throw out the Bill of Rights. This is not a Right or Left issue. It's appalling and illegal. We must stop the Democrats from all illegal activities. They were able to get into 639k records of conservatives' bank accounts. Think about that for one second. The Democrats would push this country back to third-world status. We would lose our rights and the scary fact is the media would never let us know. We would never know how bad it is. Before we knew it we would be thrown in jail, killed or otherwise living like slaves.

In a report by the OCC from 2020 to 2025, they found nine banks that targeted conservatives only. < https://www.yahoo.com/news/politics/articles/federal-report-banks-discriminated-against-145504088.html >. They targeted as many MAGA, religious and conservative accounts that they could by using the Southern Poverty Law Center's radical lists. < https://capitalresearch.org/article/a-crc-history-of-southern-poverty-law-center-controversies/ >. The Law Center has been caught targeting innocent conservatives illegally. They are in hot trouble for this.

Conservatives were de-banked for their politics and their religious beliefs, as well as their regular rules and how they functioned. < https://matzav.com/banking-blacklist-exposed-federal-investigation-finds-major-u-s-banks-denied-services-to-

conservatives-religious-groups-and-lawful-businesses/ >. That's right, these banks under Biden removed the accounts of conservatives only for their political and/or religious beliefs. It was hidden and kept out of the media. < Also see David Zervos, Counselor, Office of the Secretary of the Treasury > .

Trump has been trying to stop Voter Fraud by ensuring Voter ID with a law forcing states that won't comply with proper Voter ID, to do what they must to make sure their voter rolls are correct. They want to make sure dead people or other ineligible people are not voting. The administration has found that 250,000 noncitizens were sent ballots in California, New Jersey, Michigan and Nevada, among others. Trump has produced savings for American citizens to the tune of $30 Billion. By stopping illegal immigration as well as sending illegals home, American citizens realize affordability and lower costs in fuel, food, rents and home ownership to the tune of approximately $30 Billion.

I don't have footnotes here because almost all of this information in this article is old and already noted in many of the articles on this website. But this is new information I saw on 'Full Measure with Sheryl Attkisson.' The date of the episode was October 18, 2026. It is under "October 18, 2026 Cover Story: Border Policy": < https://fullmeasure.news > "Full Measure After Hours, " if you like podcasts. Look for the same tags to find the border policy.

Liberal Bias

What is so disgusting is the liberal media. Think about some basics. There is some kind of confusion about this measles epidemic. When you allow an invasion of unvaccinated children into the country— Biden brought in over 300,000— eventually you're going to get an epidemic. Let's look at more media nonsense. Instead of calling the FBI office, 'MS Now' went with an unsubstantiated claim that the FBI Director, Kash Patel, was in Russia. When I heard that I thought to myself, that does not sound right at all. Well, it has never happened. He was attending a law enforcement conference in Virginia at the time. Not a hard thing to confirm if you're a journalist. The same thing has happened with Trump and his family— especially his sons. They said his sons had some kind of business connection with Russia: that never happened.

DOJ Tax Enforcement Surge is a first. This is a new division within the DOJ. Because it is new, the Trump Administration is doing this a bit differently. They are able to document over $350 Billion in new fraud, waste and abuse allocations. < https://www.foxnews.com/us/doj-unveils-nationwide-tax-fraud-crackdown-involving-76-defendants-nearly-500m-alleged-losses >< https://www.justice.gov/opa/video/justice-department-announces-significant-charges-national-tax-fraud-enforcement-surge >

And you never heard of the insane inflation under Biden. You never heard about ungodly gas prices. And the media lie that Democrats are fighting against corruption is just that: A TOTAL LIE. Democrats have shifted away from Christian values and toward lies and corruption. Of course you have not heard how

Democrats want to release criminals early once arrested. These supposed “mistakes” by the media in refusing to tell the truth are so obvious and ridiculous that it smells of desperation to gain power.

Iran and the New Invasion

Iran has to go. I agree that it’s gone on too long. You have never heard the reality that Iran would have been able to attach nukes on the new planes they received from Russia. I found the proof easily, which I footnoted in the articles on this subject earlier in 2026. I have a question: Which would you rather, nuclear weapons blasted on your doorstep or paying more for fuel? And while on the subject of paying more, the Big Beautiful Bill that Republicans were able to pass by a slim margin gave you money back. That’s right, you paid less in taxes. Iran put out a letter that they are supporting the Democrats in the election and want you to vote that way.

We already have a troop or caravan of migrants coming up toward the border again. They know when the elections are being held. They’re betting they’ll be able to get in the country illegally again if Democrats win these midterms. If Republicans lose the House and/or the Senate, another immigrant invasion can happen. Please don’t let the invasion of our country happen again. Trump’s had a hard enough time sending back the murderers and rapists that came last time, never mind the plain old illegal got-aways. Arrests at the border are down 97% under Trump.

There are many things that will go wrong if we put the Democrats back in power. I doubt they will allow Trump the ability to implement many of the things he has said he wants to do. Don't forget the lies and outright fraud we put up with under a Democrat Party controlled government. If you knew nothing about it, read previous articles on this site. Democrats are not telling you the truth. They're trying to say they are moderate and believe in limited government. NOT TRUE! They have bluntly told us they are going to raise our taxes. They will open wide the borders and go right back to giving away foreign "aide," which becomes foreign theft.

Democrats have always believed that voters are stupid. Prove Democrat beliefs wrong. Vote Republican to keep our freedoms. We've got to keep our money away from the Democrats to stop the thieving. Republicans have uncovered the thieving and as of now we know it's in the BILLIONS! If you include all the funds from immigration, it comes to exactly the same money we are in debt for. That's right— $40.59 Trillion! We've been snookered out of jobs, housing, our fundamental freedoms and rights— among other things. Vote Republican so our American citizens can get and keep their jobs, keep their liberties and freedoms and stop foreign invasion at our borders. A country without borders is no longer a country.
