

Data Handling

Explore the woodland and collect... anything!

(Remember not to pick flowers or pull off sticks and leaves)

Pairs or groups should draw a tally chart to show what they found.

EXAMPLE

ITEM	TALLY	TOTAL
Stones		7
Sticks		5
Leaves		3

Which object was found most often?

Why do you think this was found most often?

Were there any objects found the same number of times?

Can you put this in a graph?
