

# OUR PURPOSE OF ESTABLISHMENT

## **Our Vision**

To become one of the leading companies and brands in national and international markets that meet the needs and expectations of the customer, add value to the society, employees and the environment with its project and post-commitment services.

## **Our Mission**

It is to make production by keeping the quality and customer demands in the foreground, in accordance with environmental conditions, in respect of nature and people, to contribute to the country's economy with the investment and employment it creates, to emphasize innovation and change prioritizing the understanding of continuous development and to be an example to other companies with the management models it applies.

A 4

QUALITY AND SUSTAINABLE DEVELOPMENT POLICY

# OUR POLICY

We keep our sensitivity to the environment and nature at the highest level, and we carry out exemplary works in each project with this awareness and responsibility. The real speed is to complete the job within the promised time and quality. We manage time well with our team who are experts in their fields and focused on their goals. We integrate well into your work schedule and work discipline, we always aim to save you time; without compromising worker health and safety.
