

Silverbell Farms is the home of Silverbell Weddings & Events LLC. We are a family farm established in 1921 that had housed dairy cows, hogs, chickens and turkeys throughout the years. Now operated by the fourth generation, the animals are gone and we are breathing new life into our wonderful farm. We have fixed up our seventy-five year old hip-style barn to reveal the cathedral ceiling roof for entertaining you and your guests. We have also remodeled two additional barns to hold all of the amenities you need. Our farm offers the rustic country romance you desire, yet still is close to the conveniences of town.
