ABA Study Booklet

7 Dimensions of Applied Behavior Analysis

Task List:
A-5

Definition:

The 7 Dimensions of Applied Behavior Analysis serve as a set of guidelines to evaluate the quality of applied behavior analysis studies.

Examples:

- applied
- behavioral
- analytic
- technological
- conceptually systematic
- effective
- generality

Practice:

Evaluate a behavioral study in a peer-reviewed journal using the seven dimensions.

A scannable QR code with links to additional websites, articles, and other readings will be provided. The views in many of these resources are not necessarily shared or supported by AllDayABA; however, it is good to think critically about them and decide what information is good, ethical, useful, etc. You can download a free QR code reading app but a list of these links will also be provided on the following pages.

Definition:

A definition of the study term will be provided here.

Write Your Own Definition:

On these lines, practice
writing your own definition
of the study term.

Examples:

- An example or set of examples of the study term will be listed in this section

Write Your Own Examples:

On these lines, practice
writing your own examples
of the study term.

Practice:

Opportunities for more practice with the study term will be described here.

Additional Notes:

On these lines, take any
additional notes that you
find helpful.

References:

References will be listed here.

Relevant Resources:

Write any other helpful
resources you find here.

applied behavior analysis

Task List: A-4

Definition:

Applied behavior analysis involves using the principles of behavior in practice to help facilitate socially significant behaviors.

Examples:

- A study examines the effects of the Good Behavior Game on classroom behavior
- A behavior analyst uses a task analysis to help teach shoe tying

Practice:

Describe some ways in which ABA can be changed or reformed to improve as a field.

motivating operation

Task List:
B-12

Definition:

A motivating operation influences the effectiveness of a reinforcer or punisher while also influencing the frequency of the specific behavior.

Examples:

- Hunger
- Thirst
- Satiation
- Deprivation

Practice:

If many motivating operations occur privately (within a person), how can we identify them and what can we do with that knowledge in our daily work?

topography

Task List:
C-5

Definition:

Topography refers to the way a behavior looks.

Examples:

- Writing in cursive and printing are two different topographies of writing behavior.
- The topography of self-advocacy might involve saying "No", "I want something else", or "Give me space".

Practice:

Explain why behaviors with the same topography can serve entirely different functions.
