

SLEEP AND REST POLICY

All children have individual sleep and rest requirements. Our objective is to meet each child's need for sleep, rest and relaxation by providing a comfortable, relaxing and safe space to enable their bodies to rest. This environment will also be closely and consistently supervised, ensuring all children are safe and feel secure our Service.

NATIONAL QUALITY STANDARD (NQS)

QUALITY AREA 2: CHILDREN'S HEALTH AND SAFETY		
2.1	Health	Each child's health and physical activity is supported and promoted
2.1.1	Wellbeing and comfort	Each child's wellbeing and comfort is provided for, including appropriate opportunities to meet each child's needs for sleep, rest and relaxation.
2.2	Safety	Each child is protected.
2.2.1	Supervision	At all times, reasonable precautions and adequate supervision ensure children are protected from harm and hazard.
QUALITY AREA 3: PHYSICAL ENVIRONMENT		
3.1	Design	The design of the facilities is appropriate for the operation of a service.
3.1.2	Upkeep	Premises, furniture and equipment are safe, clean and well maintained.

EDUCATION AND CARE SERVICES NATIONAL LAW AND NATIONAL REGULATIONS	
S. 2A	Paramount consideration—safety, rights and best interests of children
S. 3A	Paramount consideration

PURPOSE

The Education and Care Services National Regulations require approved providers and nominated supervisors to ensure their services have policies and procedures in place for children's sleep and rest having regard to the ages, developmental stages and individual needs of the children. Our *Sleep and Rest Policy* will assist the approved provider, management, educators and other staff to ensure that all children have appropriate opportunities to sleep, rest and relax in accordance with their individual needs whilst attending the Service.

We believe that children's safety, rights, and best interests are the paramount consideration for all Service operations, decisions and functions. Our Service has a duty of care to ensure children are provided with a high level of safety when sleeping and resting, and every reasonable precaution is taken to protect them from harm and hazard. In meeting the Service's duty of care, it is a requirement that all educators implement and adhere to this policy and associated procedures to ensure we respect and cater for each child's specific needs, and ensure all risks are appropriately addressed.

SCOPE

This policy applies to children, families, educators, staff, management, approved provider, nominated supervisor, students, volunteers and visitors of the Service.

IMPLEMENTATION

'Children have different sleep, rest and relaxation needs. Children of the same age can have different sleep patterns that nominated supervisors and educators need to consider within the Service. As per Standard 2.1 (Element 2.1.1) of the National Quality Standard, each child's comfort must be provided for and there must be appropriate opportunities to meet each child's sleep, rest and relaxation needs.' (ACECQA).

Our Service defines 'rest' as a period of inactivity, solitude, calmness, or tranquillity, and can include a child being in a state of sleep. Considering the busy and energetic nature of children's day, we feel that it is important for children to participate in a quiet/rest period during the day in order to rest, relax, and recharge their body. Effective rest strategies are important factors in ensuring a child feels secure and safe in an early childhood environment.

Our Service will consult with families about their child's individual needs, ensuring all parties are aware of the different values, cultural and parenting beliefs and practices, or opinions associated with sleep requirements.

SLEEP AND REST SPECIFIC RISK ASSESSMENT

The approved provider, in conjunction with educators of the Service, will conduct a comprehensive risk assessment to ensure all potential hazards are identified and specify how any risks identified are managed and minimised in sleep and rest areas in line with Red Nose and ACECQA guidelines (Reg. 84A).

The risk assessment will be reviewed every 12 months or after being aware of an incident or circumstance where the health, safety or wellbeing of children may be compromised during sleep or rest. All risk assessments will be regularly assessed and evaluated to facilitate continuous improvement in our service. If a risk concerning a child's safety during sleep and rest is identified during the risk assessment, the approved provider must update the *Sleep and Rest Policy* and procedure as soon as possible. The risk assessment must be stored safely and securely and kept until the end of three years after the last date on which the child was educated and cared for.

Our risk assessment will consider and include the following information:

- the number, ages, developmental stages and individual needs of children
- the sleep and rest needs of individual children being educated and cared for (including specific health care needs, cultural preferences, sleep and rest needs of individual children and requests from families about a child's sleep and rest)
- the suitability of staffing arrangements to adequately supervise and monitor children during sleep and rest periods
- the level of knowledge and training of staff supervising children during sleep and rest periods
- the location of sleep and rest areas
- the safety, cleanliness and condition of sleep equipment
- any potential hazards
 - in sleep and rest areas
 - on a child during sleep and rest periods (such as jewellery, clothing)
 - use of inclined sleep products
 - use of inclined non-sleep products
- the physical safety and suitability of sleep and rest environments (including temperature, lighting and ventilation)

The Approved Provider/Management/Nominated Supervisor will ensure:

- that obligations under the Education and Care Services National Law and National Regulations are met

-
- educators, staff, students, visitors and volunteers have knowledge of and adhere to this policy and associated procedure
 - all new employees are provided with a copy of this policy as part of their induction process
 - all staff, educators and casual educators are provided with sleep/rest training before supervising children
 - families are aware of this *Sleep and Rest Policy*
 - children's safety and wellbeing is paramount
 - a sleep and rest specific risk assessment is conducted every 12 months to ensure all potential hazards are controlled in sleep or rest areas in line with Red Nose and ACECQA guidelines
 - every reasonable precaution has been taken to protect children from harm and from hazards likely to cause injury. Hazards posing a risk of suffocation, choking, crushing or strangulation risk to children must be removed from the sleep and rest environment. (S.167)
 - no child is subjected to inappropriate discipline or inappropriate conduct, including any form of rough handling or physical restraint to assist children to sleep or rest
 - up to date knowledge regarding safe sleeping practices is maintained and information communicated to educators and families
 - opportunities are provided for educators to participate in Red Nose professional training
 - reasonable steps are taken to ensure that each child's need for sleep, rest and relaxation is provided
 - consideration is given to the ages, developmental stages and individual needs of children
 - a safe indoor environment for sleep and rest is provided for children that is well ventilated, has adequate natural light and can be maintained at a temperature that ensures children's safety and wellbeing and is free from all hazards including cigarette, vape and tobacco smoke (Reg. 82)
 - that sleeping children are supervised continuously and that all sleeping children are always within hearing distance and observed. This involves physically checking/inspecting sleeping children at regular intervals and ensuring that educators are always within sight and hearing distance of sleeping and resting children so they can easily monitor a child's breathing and the colour of their skin. It is recommended that educators will not perform administrative duties that would take their attention away from sleeping/resting children
 - children who are sleeping or resting have their face uncovered at all times
 - all equipment and furniture used for sleep and rest is safe, clean and in good repair (Reg. 103, 105)
 - to negotiate sleep and rest routines and practices with families to reach agreement on how these occur for each child at the Service
 - educators follow the *Administration of First Aid Policy* if the child's face/body appears blue and the child is not breathing, initiate first aid immediately including calling an ambulance and beginning resuscitation
 - an *Incident, Injury, Trauma and Illness Record* is completed in its entirety
 - the parent and the regulatory authority are notified as soon as possible and within 24 hours of a serious incident.

Educators will:

- have a thorough understanding of the Service's policy and procedure and embed practices to support safe sleep into everyday practice
- ensure children's safety and wellbeing is paramount
- communicate with families about their child's sleeping or rest times and the Service's policy regarding sleep and rest times
- respect family preferences regarding sleep and rest and consider these daily while ensuring children feel safe and secure in the environment. Conversations with families may be necessary to remind families that children will neither be forced to sleep nor prevented from sleeping.
- consider a vast range of strategies to meet children's individual sleep and rest needs
- consider inclusion of all children and adjustments that may need to be implemented
- ensure there are appropriate opportunities to meet each child's need for sleep, rest and relaxation

-
- not force children to sleep, nor use inappropriate discipline, inappropriate conduct or any form of rough handling or physical restraint to assist children to sleep or rest
 - respond to children's individual cues for sleep (yawning, rubbing eyes, disengagement from activities, crying etc).
 - acknowledge and support children's agency, emotions, feelings and fears in regard to sleep/rest time
 - develop positive relationships with children to assist in settling children confidently when sleeping and resting
 - ensure that children who do not wish to sleep are provided with alternative quiet activities and experiences, whilst those children who do wish to sleep are allowed to do so, without being disrupted. If a child requests a rest, or if they are showing clear signs of tiredness, regardless of the time of day, there should be a comfortable, safe area available for them to rest. It is important that opportunities for rest and relaxation, as well as sleep, are provided.
 - encourage children to dress appropriately for the room temperature when resting or sleeping [Lighter clothing is preferable, with children encouraged to remove shoes, jumpers, jackets and bulky clothing]
 - ensure there are no loose aspects of clothing or jewellery that could entangle the child during sleep/rest
 - create a relaxing environment for sleeping children by playing quiet relaxation music, reading stories, cultural reflection, turning off lights, and ensuring children are comfortably clothed
 - monitor the room temperature to ensure maximum comfort for the children

SUPERVISION

Educators will:

- be respectful of children's individual sleep and rest requirements
- discuss children's sleep and rest needs with families and include children in decision making (children's agency)
- provide a tranquil and calm environment for children to rest by turning off lights, playing quiet relaxing music, reading stories, cultural reflection
- ensure children are comfortably clothed
- encourage children to rest their bodies and minds for 20-30 minutes
- introduce relaxation techniques into rest routine- use of a relaxation music
- ensure children sleep with their face uncovered
- closely monitor sleeping and resting children
- provide quiet activities for children- puzzles, books, drawing if they do not fall asleep
- ensure a record is maintained recording the time and observation of each physical check immediately after checks are made on the
- record sleep and rest patterns to provide information to parents/families

Parents/Families will:

- be informed during orientation of our *Sleep and Rest Policy* and procedure
- be informed that amber teething bracelets or necklaces are not to be worn at our Service due to the risk of choking
- be requested to provide educators with regular updates on their child's sleeping routines and patterns

CONTINUOUS IMPROVEMENT/REFLECTION

Our *Sleep and Rest Policy* will be evaluated and reviewed on an annual basis, or earlier if there are changes to legislation, ACECQA guidance or any incident related to our policy. Feedback will be requested from children, families, staff, educators and management, and notification of any change to policies will be made to families within 14 days.

KEY TERMS

Term	Meaning
ACECQA- Australian Children's Education and Care Quality Authority	The independent national authority that works with all regulatory authorities to administer the National Quality Framework, including the provision of guidance, resources and services to support the sector to improve outcomes for children.
Adequate supervision	Adequate supervision means: <ul style="list-style-type: none">• that an educator can respond immediately, particularly when a child is distressed or in a hazardous situation.• knowing where children are at all times and monitoring their activities actively and diligently
Continuous supervision	Ensure an educator is in sight and hearing of a sleeping child at all times- representing best practice (Red Nose Australia)
Infant	A young child between the ages of birth and 12 months
Rest	A period of inactivity solitude, calmness or tranquility and can include a child being in a state of sleep.
Relaxation	Relaxation or other activity for bringing about a feeling of calm in your body and mind.
Red Nose	Red Nose is Australia's leading authority on safe sleep and safe pregnancy advice.
Sudden and Unexpected Death in Infancy (SUDI)	A broad term used to describe the sudden and unexpected death of a baby for which the cause is not immediately obvious (SIDS or Fatal sleeping accident)
Sudden Infant Death Syndrome (SIDS)	The sudden and unexpected death of an infant under one year of age with an onset of a fatal episode occurring during sleep, that remains unexplained after a thorough investigation including performance of a complete autopsy and review of the circumstances of death and the clinical history.
