## **Bed Bug Preparation List**

**Bed Bug Preparation instructions below. Please Follow the instructions. Basically remove EVERYTHING from the bedrooms except the furniture.**

1. Remove all bedding from bed (blankets, sheets, pillow cases, etc.) and place in a large plastic bag. Launder the bedding the same day as the bed bug treatment.
2. Remove all curtains from the windows. Launder the curtains the same day as the bed bug treatment.
3. Bag ALL clothes. Launder the clothes the same day as the bed bug treatment or AFTER, not before.
4. Remove all items under the bed and put into plastic bags or sealed containers.
5. Dismantle the bed and place mattress and boxsprings against the wall.
6. Have as much of the floor space accessible as possible.
7. Remove the floor heater covers.
8. Empty dresser drawers under the bed.
9. Take all personal items off of the dressers, night stands, floors and bag.
10. Remove all miscellaneous items from dressers, night stands, chests, etc. and put into plastic bags or sealed containers. None of these items should remain in the bedroom.
11. Empty closets and put into plastic bags or sealed containers.
12. All large pieces of furniture must be pulled at least 2 feet away from the baseboards in every room of your home.
13. Vacuum the floor, bed, bed frame, baseboards, and all the upholstered furniture.
14. Plan on vacating the apartment at the time of the treatment and for 6 hours after.
