

Temporary Food Facility Vendor Checklist

A Temporary Food Facility (TFF) Vendor can only operate at community events approved by San Bernardino County Department of Public Health, Environmental Health Services (EHS). It is the responsibility of each TFF Vendor at the event to comply with food safety and sanitary requirements enforced by EHS.

Vendors at an event are required to obtain a valid health permit and have it readily available at their booth throughout the event. Health permits are non-transferable.

The following self-inspection checklist can assist with meeting requirements.

FOOD SAFETY, STORAGE AND TRANSPORTATION

- ☐ All prepackaged foods are properly packaged and labeled at an approved facility (excluding cottage food permit). No home preparation or storage of food and beverage is allowed.
- ☐ Food is protected from contamination and in approved containers capable of maintaining required holding temperatures during transportation.
- ☐ All food, utensils and equipment are stored, displayed and served so they are protected from contamination. Food will be stored off the floor on appropriate shelving, boxes or pallets.
- ☐ All potentially hazardous foods are kept at 41°F or below or 135°F or above. Hot holding foods held above 45°F and/or leftover foods are discarded at the end of the day.
- ☐ Have a calibrated and accurate metal probe thermometer measuring from 0°F to 220°F available to check food temperatures.

HANDWASHING STATIONS

- ☐ Handwashing stations are located inside all food and beverage preparation booths.
- ☐ A minimal handwashing set-up is allowed inside the food preparation booth if the event is three days or less. This set-up requires a minimum of five gallons of preheated water, a hands-free spigot that provides continuous flow of warm water and a separate waste receptacle.
- ☐ If the event exceeds three consecutive days, a pressurized handwashing sink with hot and cold running water and a minimum of five gallon water supply is required.
- ☐ All handwashing stations have a pump soap dispenser and single-use paper towels. **Hand sanitizers do not replace handwashing.**

FOOD BOOTHS

- ☐ All food preparation, as well as non-prepackaged food, is within an approved enclosure or compartment. The ceiling, walls and floors of the enclosure are constructed of acceptable materials such as, but not limited to, the following:
 - Ceiling constructed of canvas or tarps
 - Walls constructed of canvas, tarps, plywood, fine-mesh window screening
 - Floors constructed of tarps, plywood, concrete, asphalt. The floor must be smooth and cleanable
 - Grass or dirt floors are covered with appropriate smooth and cleanable materials
- ☐ The food service opening is no larger than 13.5 inches by 16 inches with the ability of being closed.
- ☐ Each booth has signage indicating the name, city and telephone number of the booth operator or permittee. The facility name is required to be at least 3 inches tall and the city and telephone number must be at least 1 inch tall.

EQUIPMENT AND UTENSILS

- ☐ All food-related and utensils-related equipment must be installed, used and stored in such a manner that prevents food contamination.
- ☐ Acceptable cold holding units include, but are not limited to: mechanical refrigeration, freezers or ice chests.
- ☐ Acceptable hot holding units include, but are not limited to: steam tables, crockpots, chafing dishes or hot holding cabinets. All units have been pre-heated prior to placing the food in the unit.
- ☐ All cooking equipment, other than approved barbecues, will remain inside the approved enclosed booth, unless specifically exempted by EHS.
- ☐ Open-air barbecues are protected from dust and other contamination by way of an approved lid or overhead protection.
- ☐ Food preparation surfaces are cleanable and made of approved materials.
- ☐ Single-use utensils are provided for customer use. Food preparation surfaces are easily cleanable and of approved materials.
- ☐ All condiments are dispensed from a squeeze bottle, pump dispenser, individual packets or condiment containers with self-closing lids.

WAREWASHING SINK AND WASTEWATER

- ☐ A three-compartment warewashing sink with dual drainboards is present for all food/beverage preparation booths. Overhead protection is required for all warewashing sinks.
- ☐ All shared three-compartment warewashing sinks provided by the event organizer are maintained by cleaning, refilling and checking sanitizer levels throughout the event. No more than four vendors can share a warewashing sink.
- ☐ All warewashing sinks are supplied with a minimum of 25 gallons of pressurized warm water (minimum of 100°F), unless food preparation is limited, then 15 gallons is required. Wastewater is contained at all times.
- ☐ An approved sanitizer is used at the event for sanitizing utensils and food contact surfaces. Approved sanitizers include chlorine (bleach), quaternary ammonia (quat) or iodine. Sanitizer test strips are available, used to monitor sanitizer levels and will correspond to sanitizer in use at the event.
- ☐ All multiple-use wet wiping towels are stored in an approved sanitizing solution between uses.
- ☐ All wastewater from warewashing sinks and hand washing stations are disposed of through a public sewer system or other manner approved by EHS.

ELECTRICITY DETAILS (IF PROVIDED)

- ☐ Adequate electricity is available for refrigeration units or other equipment (for maintaining potentially hazardous foods at the proper temperature). If the event extends into the evening hours or will last more than one day, ensure electricity is available to light the food preparation area inside the booth. Sources of electricity can include public utilities and/or generators.

ADDITIONAL INFORMATION

- ☐ No food or beverages prepared at home (excluding food under cottage food permit) are allowed.
- ☐ If food preparation is in a permitted facility, provide verification of the permit.
- ☐ Potable (drinking) water is available during the event for food processing and warewashing.
- ☐ Garbage/trash is frequently picked up and disposed of properly.
- ☐ Animals and smoking are prohibited within 20 feet of food booths, storage areas and/or by the barbecue.

For more information on TFF operating requirements email at TFF@dph.sbcounty.gov, contact EHS at 1-800-442-2283 or visit the EHS website at wp.sbcounty.gov/dph/programs/ehs. You can find the California Retail Food Code (Cal Code) on the Program & Services webpage under the Food Facilities section.

TEMPORARY FOOD FACILITY VENDOR HEALTH PERMIT APPLICATION

MAKE CHECKS PAYABLE TO: SAN BERNARDINO COUNTY				
Submit this application and all subsequent fees at least two weeks prior to the event. A late fee will be assessed if the application is not completed a full 48 hours prior to the day of operation (Example: Fees are due on Wednesday for a Saturday event). Failure to complete the application and pay all fees will result in the assessment of a delinquent fee or closure.				
Health permits are non-transferable and must be posted in a visible place within the TFF food booth. A TFF may only operate at community events approved by San Bernardino County Department of Public Health, Environmental Health Services (EHS).				
Indemnification: The Contractor agrees to indemnify, defend (with counsel reasonably approved by County) and hold harmless the County and its authorized officers, employees, agents and volunteers from any and all claims, actions, losses, damages, and/or liability arising out of this contract from any cause whatsoever, including the acts, errors or omissions of any person and for any costs or expenses incurred by the County on account of any claim except where such indemnification is prohibited by law. This indemnification provision shall apply regardless of the existence or degree of fault of indemnitees. The Contractor's indemnification obligation applies to the County's "active" as well as "passive" negligence but does not apply to the County's "sole negligence" or "willful misconduct" within the meaning of Civil Code Section 2782.
