Welcome to the 43rd edition of *The Log's* annual Slips Guide, a comprehensive resource for boaters searching for a place to tie up along the Pacific Coast and beyond. From Southern California's busy harbors to the cruising grounds of Mexico, the Pacific Northwest, Alaska and Hawaii, the 2027 guide brings marina information together in one place to help boaters plan their next stop, search for a long-term berth or simply see what is available farther up the coast.

Marinas are always changing. Slip availability shifts, rates are adjusted and facilities and amenities evolve from year to year. To make this guide as useful and current as possible, *The Log* contacts marinas individually to verify their information. When a marina does not respond to our annual survey, the most recently available information is included. Boaters should always confirm rates, availability, vessel-size requirements and other details directly with a marina before making plans.

The Slips Guide is designed to be useful whether you are searching for a home port or mapping out a longer voyage. Listings include information such as slip sizes, rates, shore power, fuel, pump-out facilities, guest moorage, launch ramps, Wi-Fi and other services when available.

The 2027 Slips Guide is also available online through thelog.com, giving boaters convenient access to marina information and resources wherever their cruising plans may take them.

Finally, we thank the advertisers whose support helps make the Slips Guide possible. Advertiser listings are highlighted in yellow throughout the guide. Every effort has been made to provide accurate information at the time of publication, but marina details can change after the guide goes to press. If you find information that needs to be updated or know of a marina that should be included in a future edition, we encourage you to contact *The Log* so we can continue making the Slips Guide an accurate and useful resource for the boating community.

HARBOR ISLAND WEST MARINA

A REIMAGINED MARINA EXPERIENCE

CALL NOW TO RESERVE YOUR SLIP

YOUR NEXT SLIP ON SAN DIEGO BAY

The Harbor Island West Marina redevelopment is underway. The state-of-the-art concrete dock system is opening in phases, with project completion planned for early 2028. The first new docks filled almost as soon as they opened, and with resort-style amenities—including concierge services, spas, and a fitness center—coming soon, we expect each phase that follows to do the same. The phases still to come include a wide range of slip sizes, from 20' up to 110'. Contact the marina office today to reserve your slip at Southern California's premier waterfront destination.
