

My family and I moved to Fountain Hills in 2001. My two (now adult) children attended FHUSD from kindergarten (my daughter Maggie) or first grade (my son Adam) through high school graduation. I've actively participated in District activities. I volunteered as a classroom helper for several years at the former McDowell Mountain & Four Peaks schools, including conducting sessions for groups of gifted students. I was a member of the parents' advisory committee for the gifted program at the former Four Peaks School with former teacher Jean Boatman and Melanie Anderelli. My wife, Judy (who was an FHUSD Governing Board Member for almost 8 years until her death in 2022) and I have volunteered at Falcon Fiesta (running the BINGO game) every year since 2013. In my family physician role, I've presented a tobacco-use prevention program to the 5<sup>th</sup> graders in the District (and in several Scottsdale schools) every year since 2006 (except 2020 during COVID). I have taught faith formation classes at my church since 2002 with children ranging from kindergarten through 8<sup>th</sup> grade, mostly 3<sup>rd</sup> grade. Other volunteer community service includes participation in and/or leadership of several church ministries, conservative political organizations, and on the Board of Directors of Aid to Women Center in Tempe.
