### HOW WE REALLY COMMUNICATE

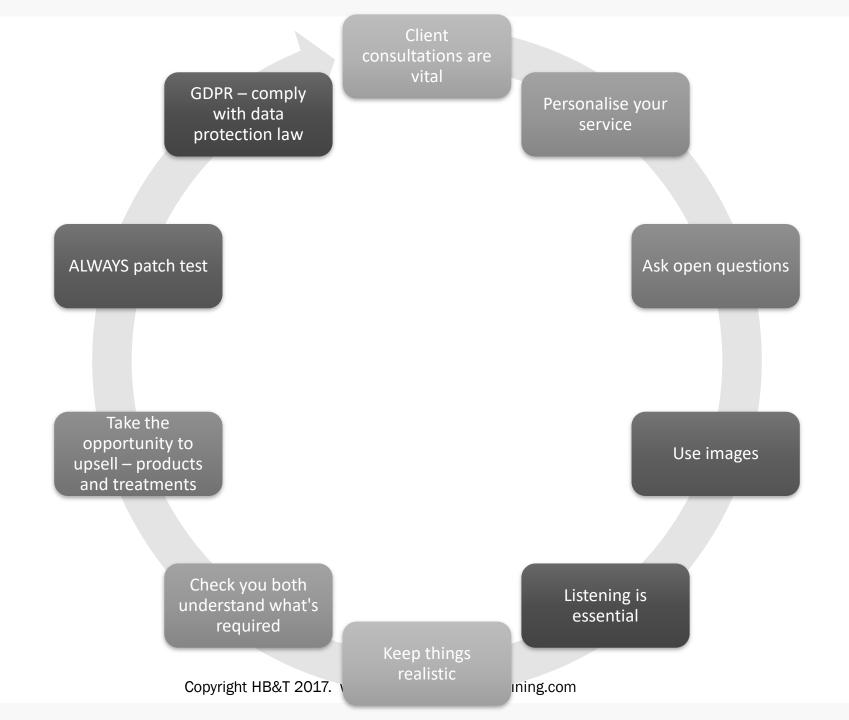

### **CLIENT CONSULTATION**

Whether you have a new client or one that's been coming to you for years, always carry out a full consultation at the start of the appointment.

A longstanding client may have had the same beauty treatment for years but don't assume they'll want the 'same again' each time they visit. Similarly, a new client will welcome a detailed consultation as this will make them feel valued as an individual rather than feeling like just another client.

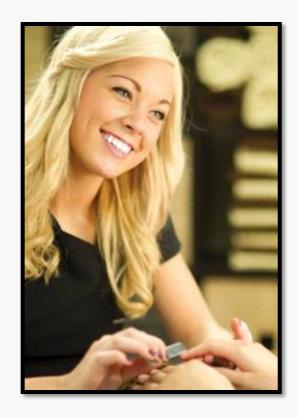

## **Conversation starters**

- Have you been here before, how did you hear about us?
- Do you have regular treatments, have you tried...?
- Which treatments have you had?
- Is the treatment for a special occasion?
- The client may want to just relax and not chat, so if they are quiet, only discuss what is necessary.

# **Client care**

- Welcome your client in and show them where to place their belongings\*
- Ask client to sit to complete and sign a consultation form
- Ensure your clients comfort throughout, confirm they are warm/ cool enough.
- Always protect clothing with couch roll/towels
- Have access to fresh drinking water and a bathroom
- Ask them to remove glasses/contact lenses/jewellery/clothing as necessary.

\*COVID-19: Wash & sanitise hands and wear a face mask.
