

Certified General Industry Safety Specialist 30 Hours

IASHEP 30 Hour Safety & Health Standards for General Industry

32 Hours / 3.6 CEU's

Course Fees: \$390.00

Course Objectives:

IASHEP 30 hour general industry training is the primary method used to train workers and supervisors on hazard recognition and OSHA safety awareness and OSHA general industry standards that helps each worker recognize and reduce the risks of job site hazards.

This course covers interactive hazard recognition training is intended as an orientation to OSHA standards and covers safety and health hazards workers may face in general industry facilities. Our 30-hour course places special emphasis on OSHA and State OSHA standards and hazard identification, avoidance, control and prevention.

OSHA recommends workplace safety training for a safe and healthful work environment. Our training covers specific OSHA regulations and requirements as they apply to the general industry. OSHA outreach trainer cards are only authorized for the United States while the IASHEP 30 hour course completion card is recognized around the world.
