emergency response operations, and storage, disposal, or treatment of hazardous substances or uncontrolled hazardous waste sites.

Topics include:

- 29 CFR 1910.120 (e)(3) through (e)(9)(q)(6) through (q)(8)Appendix E (3)
- OSHA HAZWOPER requirements for emergency responders.
- Chemical and biological hazard classification.
- Classroom and hand-on experience in
- Personal protective equipment selection at a response scene.
- Techniques for monitoring hazardous substances.
- Containment and control response options.
- Equipment, site, and personnel decontamination.
- Sizing up a response scene
- Site control
- Selecting and implementing safe and appropriate response actions.
- Response termination.
- Response review.

Prerequisite: Potential Trainers must have 40 hours of initial training. IASHEP Can provide that initial training as well.

Disclaimer Note: OSHA does not approve, certify, or endorse individual trainers or training programs. The standard identifies qualified trainers as those who have satisfactorily completed an instructional program (train-the-trainer) or who otherwise have the academic credentials and instructional experience necessary to teach a HAZWOPER training program.

Course Regulation

This course is intended to improve the instructional skills, abilities, and knowledge of HAZWOPER/HAZMAT trainers. Participants will be required to present at least one 30-minute training segment on a health or safety topic chosen during the course. Approval as a Trainer is required through 29 CFR 1910.120 (e)(5) & (g)(7).

29 CFR 1910.120: Qualifications for Trainers:

- **(e)(5):** Qualifications for trainers. - Trainers shall be qualified to instruct employees about the subject matter that is being presented in training. Such trainers shall have satisfactorily completed a training program for teaching the subjects they are expected to teach or they shall have the academic credentials and instructional experience necessary for teaching the subjects. Instructors shall demonstrate competent instructional skills and knowledge of the applicable subject matter.
- **(g)(7):** Trainers.- Trainers who teach any of the above training subjects shall have satisfactorily completed a training course for teaching the subjects they are expected to teach, such as the courses offered by the U.S. National Fire Academy, or they shall have the training and/or academic credentials and instructional experience necessary to demonstrate competent instructional skills and a good command of the subject matter of the courses they are to teach.
- **Appendix E - (3):** Instructors.- Instructors should be deemed competent on the basis of previous documented experience in their area of instruction, successful completion of a "train-the-trainer" program specific to the topics they will teach, and an evaluation of instructional competence by the Training Director.

In other words, a trainer must be able to demonstrate proficiency and understanding of the material to be transmitted to trainees and have some credentials or experience in training adults. Trainers must also continue to attend training to maintain their knowledge and skills. It is ultimately the responsibility of the employer whose workers are to be trained, to determine if the trainer meets the requirements and qualifications under HAZWOPER.

This course meets the standard requirement of 40 hours of initial training. The required 8 hours of hands-on training can be completed by a qualified instructor. The three days field experience under a trained, experienced supervisor is the responsibility of the student's employer or potential employer. Other suppliers of this type of training may not tell you this extremely important piece of information.

Student Materials

Students who attend this course will be provided with the following course materials that will prepare them for their future training roles. Students will receive:

- One Year Free Membership Into IASHEP
- 2024 Emergency Response Guidebook
- NIOSH Pocket Guide to Chemical Hazards
- Sample plans, Programs, Audits Sheets, and Checklist
- Student Outlines, Handouts, and Tools to be used at your work locations.

IASHEP is accredited by the International Accreditors for Continuing Education and Training (IACET). IACET is the developer of the original Continuing Education Unit (CEU) and today ensures that providers of continuing education and training can prove they provide high-quality instruction by following the *ANSI/IACET 1-2018 Standard for Continuing Education and Training*.
