Facial piercing Aftercare Instructions

Cleaning & Care

- Clean twice Daily, with sterile saline solution or a piercing aftercare spray.
- Wash your hands before touching or cleaning your piercing.
- Soak in warm water with salt to remove buildup.
- Pat dry with disposable paper towel after face care (avoid cloth towels)

Piercing Care Musts

- Leave the jewelry in for the entire 2-4 months.
- Always have jewelry in for the first year.
- Use only hypoallergenic jewelry (titanium/ 14k gold)
- Protect it from snagging on clothes, towels, or while sleeping

Initial healing: 6-12 weeks Full healing: up to 12 months

Avoid these

- Twisting, spinning, tug, or playing with the jewelry.
- Removing the jewelry's early, it may cause jewelry to close.
- Hydrogen peroxide, or any harsh chemicals.
- Don't pick at crusties (soften with saline or warm salt water)
- Avoid makeup, foundation, skincare around the area.
- Swimming in pools, lakes, or hot tubs until piercing is well healed.

Thank you for choosing us for your piercing! We're here to help every step of the way!
