### **Au Sable River**

Located in the northern lower peninsula of Michigan, the Au Sable is known for its high water quality, scenery, recreational opportunities, coldwater fishery, and historic and cultural significance. It may just be the finest brown trout flyfishing east of the Rockies. If that were not enough reason to visit the river, the Au Sable is also one of the best canoeing rivers in the Midwest.

#### *A World Class Trout River*

The West Branch of the Ausable River is one of the premier fly fishing destinations east of the Mississippi. The river is a must-visit location for any angler looking for an Adirondack fly fishing experience.
