Re: Telephone Conversation of September 9, 2020

Dear Mr. Cullum,

It was a pleasure speaking to you and Randy on Wednesday, September 9, 2020. This letter is memorializing a portion of the conversation dealing with mediation.

I appreciate you informing me that mediation is still on the table. However, after speaking to my clients and finding out what they would like to do going forward, they feel that since we have uncovered a plethora of information regarding your client, spanning back many, many years, dealing with incorrect and/or fraudulent information; we have gone far past the stage of mediation and a trial is warranted to bring forth and to cause your client to answer for their wrongdoing and the disservice they have bestowed onto my clients.

Kind regards,

*Sherra J. Kissee*
