Products

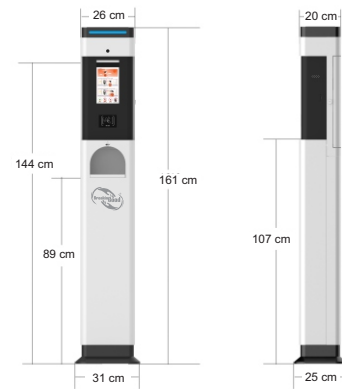

BreakinGood is a sanitizing products distributor and manufacturer in Toronto, Canada.

Sanitizing Station

Our sanitizing stations are equipped with infrared temperature scanners and mask detection technology.

BreakinGood stations come in two models, BGX1 and BGX10 with 1 L. and 10 L. hand sanitizer reservoir.

Temperature Sensing Device

Our infrared temperature measuring device is very easy to operate. It also contains additional software options such as mask and helmet detection and employee time clock.

“BreakinGood hand sanitizer recommended for use in our sanitizing stations”.

Pricing/Services

BreakinGood sanitizing equipment is ISO Certified and CE approved.
