When a recipe works, it does not need to be changed.

Like a good recipe, it seems the same could be said of policies; once a policy works, leave it alone.

Legislatively, however, laws seem to be created at the whims of legislators.

It seems they are often not establishing policies for the good of the People.

It seems they are making and changing laws for underlying reasons that are not always good for us.

Here are perspectives, in process, on issues, some ideals, and where candidates stand, so that we can vote in those men or women who are choosing Best Policies for the good of the People.

We welcome ideas, comments, critiques, and questions.
