Civil rights are the personal rights guaranteed and protected by the U.S. Constitution and federal laws enacted by Congress. Throughout the history of our country, many have fought for and defended our civil rights. Often those in power would destroy these rights if we are not diligent. Today there are strong examples of those who would destroy the civil rights of all U.S. citizens.

The following links are to assist us in finding resources and facts, so we can each be equipped to make the best decisions. We strongly encourage everyone to be diligent and discerning as they do their own research.

If you have questions or comments, please email us at FactsForFreedom@protonmail.com.
