

Valerie Jagiela:

I have been serving as the Chairperson for the Water Quality and the Bylaws, Rules and Regulations Committees for the past two years. I have a Bachelor's degree in Biology and previous experience as a Board Member on Homeowner's and Golf Committees. My term is up and I am asking for your vote again this year.

Christine Davis:

I moved to Sunset Lake in 2010. I am a full-time resident and live on West Lake Drive.

My career includes 30+ years at the Illinois Environmental Protection Agency in Springfield. I work in the Watershed Management Section on technical and financial assistance programs to protect Illinois' rivers, streams, and lakes from point and nonpoint source pollution. Most of my time has been spent as a project manager to assist local grant recipients to plan and implement projects and programs to control pollution from impacting our water resources. Projects have included implementation of agricultural best management practices (waterways, terraces, streambank stabilization), urban stormwater projects (green roofs, permeable pavement), and lakeshore stabilization projects (Otter Lake shoreline and sediment detention basin). Prior to Illinois EPA, I worked for 3 local soil and water conservation districts to help agriculture producers and communities to plan and implement soil erosion control projects on their property.

Although, not so recent, I do have experience as a board member. The organizations included the Springfield Audubon Society, Lincoln Memorial Garden, Shemamo Girl Scout Council (Decatur), and the Illinois Lake Management Association.

As a board member, I plan to help the Association maintain the structure and activities that make Sunset Lake a wonderful place to live. I've lived here for 15 years and have participated/volunteered for some activities. It's time for me to step up to the plate and invest more in our community. I understand that there will be successes and challenges while we work to ensure that the lake is well maintained and that the Association members work together to help each other realize the vision that they have for their lake, even when their visions are a bit different.

Rodney Winterland:

I'm Rodney Winterland, lot 79 and I have been a member living full time on this lake for over 7 years. I received a BSEET from DeVry University in 2001. I am currently the U.S. and Canadian Service Manager as well as a Lead Electrical Engineer for a Surgical Company specializing in IVF. Sunset Lake has become near and dear to my heart and would love to be part of helping maintain the beauty and peacefulness this lake provides. Giving back to a community that has given so much to myself, my family and friends would be a privilege. I would appreciate your vote to become a member of the Lake Association board.
