

BOD 4/9/2019

I was invited by Deb Martin to attend her March 7th Finance Committee Meeting. I want to thank both Deb and her committee for their input and ideas. The suggestions that came from this meeting were very helpful & constructive and I was prepared to bring a Motion Forward but it was determined that the Agenda for the April Meeting was very lengthy so my motion will be presented at the May BOD Meeting. I really enjoyed the discussion and once again I would like to thank Deb and her committee. In May, I'm looking forward to presenting these findings which are minor in nature but are very thoughtful and sensible.

NOTE: None of the "Pending Permits" are impacted by this pending Motion and once again the changes are minor so it can wait until May.
