UNI-FIX - Test Fixtures

- UNI-FIX, a trusted North American company based in Phoenix, has been delivering premium test fixtures for over 30 years. Renowned for their unmatched quality and engineering expertise, UNI-FIX provides solutions for virtually every loaded board requirement. As a Channel Partner with Agilent and a recommended vendor for Teradyne, they specialize in cost-effective, reliable, and repeatable in-circuit and functional/mechanical test fixtures. Additional services include custom engineering, machining, and travel case design. Contact us to discuss your specific requirements.

AOI Systems

- Delivering exceptional value in first article inspection and automated optical inspection (AOI) systems. Benchtop models are available starting at just \$20k. Visit our website or contact us to arrange a demo or learn more about our solutions.

Assembly Equipment, Services & Supplies

- RS Sales collaborates with leading providers of assembly solutions, offering a full spectrum of equipment, services, and supplies. Contact us to explore tailored solutions for your company's assembly needs.

Flying Probe Testers

- Offering single-sided, double-sided, stand-alone, and inline flying probe testers. Let us know your preferred specifications, and we will source the best systems and pricing available.

Functional and In-Circuit Test Systems

- Providing both custom and off-the-shelf solutions for functional and in-circuit testing. Systems from Keysight, GenRad, and Teradyne are configured to meet your precise requirements.

Functional Test Equipment

- Partnering with top-tier suppliers to deliver the best pricing on waves, gauges, meters, and scopes. Share your requirements, and we'll provide multiple competitive options.

Handler Equipment

- Custom and standard solutions for conveyors, handlers, loaders, and unloaders designed to meet any operational need. Contact us to discuss your specifications and develop a tailored solution.

Your one source for all your board assembly and test needs

PC Upgrades for GenRad/Teradyne and HP3070 Systems

- Enhance system performance, reliability, and compatibility with our advanced PC controllers featuring the latest processor and storage technologies.

Test Equipment

- Offering fully refurbished in-circuit test systems, including Agilent, GenRad, and Teradyne models. Each system is custom-configured, installed, and backed by a warranty. Best pricing guaranteed—contact us for a quote.

Test Fixture Maintenance Equipment

- Supplying essential maintenance tools, including low-cost probe cleaning pads, insertion and extraction tools, LED sensors, and mini-cameras.

Test Programming

- Partnering with premier programming houses to deliver software solutions for in-circuit and functional test requirements. Share your needs, and we'll connect you with the best service providers.

Tester Calibration/Service/System's Upgrade

- Comprehensive maintenance services for GenRad, Teradyne, and Agilent 3070 testers. Services include AVPs, PMs, troubleshooting, repairs, and part replacements, all performed by experienced technicians. We guarantee 24/7 support and onsite service within 24 hours for contract clients.

Testing Services

- Representing industry leaders offering flying probe, in-circuit test (ICT), functional test, and reverse engineering services.

X-Ray/AOI

- Access to a wide range of pre-owned AOI and X-Ray equipment. Provide us with your requirements, and we'll identify the optimal solution to meet your needs.

We Buy Used Test Equipment!

Looking to sell your used test equipment? Contact us for a competitive quote, or let us handle the sale on your behalf.

Upgrade to Newer Test or Assembly Equipment

Trade in your old equipment for credit towards new test or assembly solutions. Reach out to explore trade-in options tailored to your needs.
