Lead Partner for WP6 - Dissesmiation

The WP aims to gather key stakeholders around VTech@WBUni agenda and ensure that all project outputs and results are transferred outside the partnership, disseminated and used in the most effective way.

In order to achieve such objectives, transparent instruments of communication will be used, as well as adequate and timely inclusion of targeted audience for the project. All will be integrated in the Dissemination Plan, ensuring a smooth roll out of key messages, while synchronizing targeted outreach with project implementation milestones.

A variety of communication tools will be used for measuring communication and awareness raising effectiveness. In order to ensure cohesive delivery of project outputs and results, internal communication activities will be performed concurrent to the external ones.

Dissemination activities:

- • - Preparing project dissemination plan
- • - Building the visual identity of the project, creating the website and social network pages for promotion
- • - Preparing marketing materials and publications
- • - Dissemination through events such as roundtables, workshops, trainings
- • - Dissemination to various stakeholders
- • - Final conference/event

Exploitation:

- • The project will establish internal and external communication and collaboration facilities and interactive services like help-desk and online conference facility, or networking (foundation of a VTech@U community/network).
