## CYRIL

RELEASE DATE:  
MAY 23, 2025

Also releasing in May, their single “Cyril”, a song that brings attention to the issue of veteran suicide and also highlights the loss of a life lived- Cyril “Rocky” Rockwell. He was a combat veteran, a son, a father, and a friend. Bronson Hetzer, lead singer of The Filthy Heathens, wrote “Cyril” in honor of his friend Rocky. Bronson sings this in front of audiences any chance he gets. The song chorus highlights that even though Rocky came home, doesn’t mean he made it back.

This story is tragically common: Veterans Affairs estimates 22 veterans die of suicide every day. The most current stats are debated, but everyone can agree that even 1 a day would be 1 too many.

The Filthy Heathens encourage everyone to check on their friends & family who served and ask how they are doing and then ask how they are really doing. Many of our veterans are not okay. We can do better for them.

Single release party May 24th at Devil Wind Brewing in Xenia, Ohio
