

# Monthly Firearms Law & Policy Update – October 2025

## National Spotlight – H.R. 38: Constitutional Concealed Carry Reciprocity Act

**Status:** Introduced in Congress (119th Session)

**Summary:** H.R. 38 proposes nationwide recognition of concealed carry permits, allowing a permit issued in one state to be valid in all others.

**Impact:** If enacted, it would allow California CCW holders to carry in other states, and potentially allow out-of-state permit holders to carry in California.

**Current Reality:** The bill has not passed; there is no national reciprocity law in effect.

**Instructor Note:** Out-of-state permits are not currently recognized in California.

## California Update – AB 1127: Semi-Automatic Pistol / “Glock-Type” Ban

**Status:** Signed into Law (Effective July 1, 2026)

**Summary:** AB 1127 prohibits licensed firearm dealers from selling or transferring certain striker-fired semi-automatic pistols that can be easily converted to automatic weapons.

**Impact:** Current owners and CCW holders are unaffected. Lawful possession and carry of existing Glock-type pistols remain legal. Private-party transfers remain lawful through licensed dealers under DROS and background-check requirements.

**Instructor Note:** Carrying a lawfully owned Glock remains valid under current California law.
