

## **Registered Behavior Technician (RBT)/Behavior Technician (BT)**

As a Behavior Technician on our team, you'll have a crucial role in promoting socially significant change for clients in the clinic and community. Behavior Technicians are responsible for implementing the treatment plan written by a Board Certified Behavior Analyst, focusing on increasing socially appropriate behavior, fostering independence, and reducing maladaptive behaviors. Skills are taught to clients through a variety of curriculums, activities, play and individualized protocols. Capturing accurate data on progress towards goals using our data collection software is a crucial aspect of this job to track client's progress and intervention effectiveness. This position offers a unique opportunity to make a significant, direct impact on our clients' lives, helping them achieve their goals and succeed in daily activities in a practical and meaningful way.

### **Responsibilities**

- Providing direct one-on-one aba therapy in clinic and in the community by implementing individualized treatment plans developed by BCBAs.
- Following the behavior reduction and behavioral skill acquisition protocols to promote social skills, emotional regulation and essential functional living skills.
- Collect accurate data using data collection software to monitor client's progress towards treatment plan goals
- Write professional and object session notes to accurately document activities, client responses, and progress during each therapy session.
- Communicate with client's parents and guardians in a professional manner
- Accept and Implement Feedback from Case Manager and Assistant Case Manager
- Complete trainings and attend team meetings
