OUR COMMITMENT TO TRAINING

Always focused on the advancement of others, as the owner is a true believer in the saying that a “rising tide raises all ships”. The E I Electrical team this year alone has occupied 18 CEO Warrior training seats and has another 8 seats planned. We have and continue to have in-house training both at the individual and whole company level. We also continue to support and be a part of the locale ABC Apprentice Training Program, of which several of our staff members are enrolled in. Our team continues to support those no longer working us, by providing experiences certificates and recommendations to the local Electrician Board for licensing of Journeyman Electricians and future Electrical Contractors.

WE FIGHT HARD FOR THE LIVELIHOOD OF OUR STAFF

E I Electrical has NEVER once laid off a single person in over 25 years despite fighting hard thru varying economic conditions. Whether our guys are working on a 3-phase industrial transformer, turning wrenches on vans, or organizing the shop we have always keep our employees going, thru thick and thin. Finding creative ways to give back to those who have worked so hard for us, yet doing it in a way that is beneficial to the company and its future. No

idle hands, always working, always striving toward success for all involved. We fight hard every day for the livelihood of the team, for our loyal Tribe of Warriors.

A TRUE WARRIOR COMPANY – FILLED WITH PATRIOTIC WARRIORS
