MOBILE NETWORK CART

COMET INDIGICART

HIGH-CAPACITY PRIVATE LTE/5G AND WI-FI PLATFORM

Roll in. Power up. Connect.

Private connectivity where it is needed—indoors or out.

COMET IndigiCart is a high-capacity mobile network cart designed for rapid deployment across campuses, warehouses, shelters, events and tactical sites. It combines private LTE/5G, Wi-Fi, edge compute, power management and an elevated antenna system in a maneuverable rolling platform.

KEY CAPABILITIES

- Self-contained network system — integrated core, radio and routing.
- Plug-and-play activation — connect power and deploy rapidly.
- Elevated coverage — private LTE/5G reach up to 2 miles.*
- High-capacity Wi-Fi — supports up to 256 users.*
- Mobility-optimized chassis — heavy-duty rolling enclosure.
- Resilient power — onboard battery and generator options.

When networks fail, the mission can't wait

Disasters, remote terrain, and surging demand routinely outpace fixed networks. A traditional Cell-on-Wheels can take weeks to months to arrive. Teams need coverage that deploys in minutes — and works when everything else fails.

Infrastructure fails

Storms, wildfires, and outages knock out cellular exactly when it's needed most.

Coverage gaps

Rural, tribal, and remote areas are routinely beyond reliable carrier reach.

Too slow to deploy

Permanent builds and carrier COWs take weeks — response can't wait.

Missions move

Events, worksites, and operations shift location and demand constantly.

BUILT FOR

Warehouses • Campuses • Emergency shelters • Events • Command posts

DELIVERED THROUGH THE COMET PARTNER ECOSYSTEM

INDIGICART

Roll in. Power up. Connect.

WHAT'S INCLUDED

- Integrated LTE/5G radio
- Private network core
- Edge compute and routing
- Power management system
- Mobile cart enclosure
- Elevated antenna system

OPTIONAL ADD-ONS

- Power generator
- Extended battery pack
- Dual-radio configuration
- Wi-Fi 6 integration
- Remote monitoring license

TARGET INDUSTRIES

- Manufacturing
- Logistics and distribution
- Healthcare
- Education
- Enterprise IT
- Government and military

OPERATIONAL BENEFITS

- No fixed infrastructure required
- Rapid indoor or outdoor coverage
- Scalable across multiple facilities
- Easy relocation between sites
- Enterprise-secure network

WHY INDIGICART?

Warehouses expand. Shelters open overnight. Production lines move. IndigiCart brings private cellular and Wi-Fi directly to the point of need—without waiting for construction crews or carrier build schedules. Its rolling form factor makes secure coverage a reusable operational asset.

INDIGITECH
A Division of Teltech

MISSION READY

Operational agility should not depend on permanent installations.
